

The Cityclass articulated GNC “Bus of year” in Spain

Barcellona, 3rd June 2005

On 3rd June a jury made up of Spanish experts (managers of transport firms and specialist journalists) awarded the *Autobús del Año* (Bus of the Year) prize, organized by the specialist magazine "Viajeros" to *Cityclass articulado GNC Carroceria City.versus de Castrosua*, equipped with a compressed natural gas engine.

The vehicle is part of the TMB fleet, the Barcelona urban transport company. In a recent communiqué, this company stated that they had purchased 80 Iveco buses for their fleet, 10 running on diesel and 70 on GNC, including 50 articulated ones.

Jesús Gómez Llorente, director of Viajeros, said that *«the jury was favourably impressed by the technical specifications of the bus. Designed by Pininfarina, it has stylish and elegant lines. It is low to allow easy access for passengers and has an economical and very reliable power unit»*.
