

ISO 14001 – 2001 certification confirmed at Valladolid as well

Valladolid 14th June, 2005

At the end of the first inspection visit carried out at the Valladolid plant (14th-15th June) the *Vehicle Certification Agency (VCA) and CERMET - Certificazione e ricerca per la qualità (Quality certification and research)* have awarded 14001 - 2004 certification, already received by the factory during the course of last year.

The strong points highlighted by the certifiers included:

- the substantial improvement in storing extra products at various points in the factory
- the reduction in uncontrolled fluid leaks through the No Touch system
- the excellent awareness of legal requirements
- the good participation of personnel in improvement actions
- the good level of order and cleanliness.
