IVECO

The operating conditions for the vehicles of today are far from ideal

- Double and Treble Shifting
- A Million KM's plus in a lifetime
- Greater payloads
- Constant stop - start, leading in part
- Widening variations in operating temps

Not to mention

- The required reductions in emissions
- Better fuel economy
- Even greater reliability
- Less scheduled downtime
- Expected longer component life

Technology is constantly evolving, engineering tolerances are getting finer, materials improving, getting stronger. The key ingredient which binds these together; the crucial life blood of a mechanical assembly, lubrication, is moving just as fast.

5w-30 Urania FE Engine Oil

- Improves Fuel Economy by up to 4%
- Supports extended oil drain intervals
- Helps in achieving current 'Euro' exhaust emission limits
- Reduces internal friction and wear on moving parts
- Better cold start lubrication
- Enhances engine cooling performance and capability
- Lower oil consumption
- Is the Manufacturers required standard for Euro 4/5 Stralis, Eurocargo and Trakker models (except Iveco Daily models which require Urania Daily FE 5w30)

75w-80 Tutela Truck FE - Gear

- Improved fuel efficiency when used as part of a total synthetic lubricants package
- Potential to extend service intervals
- Maximum protection for moving parts
- Reduces internal friction
- Exceptional low temperature fluidity

Motor oil

75w-90 Tutela Truck FE - Axle

- Improved fuel efficiency when used as part of a total synthetic lubricants package
- Minimises internal resistance, maximises protection
- Extends component life and potential service intervals
