The Daily is the best partner for your business.

It is just as strong, versatile and as high a performer as ever. In addition, true to its business instinct for the transport industry, it introduces new features that make it an even better partner for your business.

The Daily E6 has put innovation and technology at your service to help you manage your vehicle effectively and enjoy how its lower cost of ownership contributes to a healthy bottom line for your business. The E6 engines run cleanly and efficiently, adding to your sustainable credentials.

It also takes care of its drivers: the cab is more comfortable and quieter than ever and with the HI-MATIC transmission drivers will discover the meaning of absolute driving pleasure. The Daily E6 is also introducing a new level of connectivity, fully integrating your mobile device with the vehicle so that it becomes your business and driving assistant.

The widest range in the industry has become even wider to meet the evolving and broadening spectrum of requirements of your business and of transport operators around the world.

The Daily E6 is the perfect partner, with its unfailing instinct for anticipating your business needs and providing the solution when you need it, year after year.
UP TO 8% FUEL SAVINGS*

The Daily E6 further improves on its reputation for delivering fuel economy. The Variable Geometry Turbocharger, available on models from 136 hp to 180 hp, ensures a more efficient use of the engine. The EcoSwitch solution has evolved: the new EcoSwitch PRO intelligent system knows when to step in and reduce torque without intervention from the driver, reducing fuel consumption with no compromise on your productivity. The exclusive IVECO Driving Style Evaluation system helps you improve the way you drive, just as if your driving instructor was sitting right next to you, which can result in significant additional fuel savings.

UP TO 12% REDUCTION IN MAINTENANCE AND REPAIR COSTS**

The longer maintenance intervals, extended to 50,000 km thanks to longer lasting components and consumables, give you 20% more up-time between services. The optimised braking system with new, tougher brake pads is more efficient and durable than ever. On top of that, wherever you are, whatever the time, you can count on a professional and specialised service network that will keep your business running.

* Compared to equivalent Euro 5b+ models and according to the New European Driving Cycle (NEDC).
** Compared to equivalent Euro 5b+ models.

The Driving Style Evaluation (DSE) system is like having an instructor on board, giving real time suggestions to your driver on how to optimise his driving style with a consequent reduction in fuel consumption. Experience has proven that just following the DSE’s suggestions can save as much as 15% of fuel.
ENGINE TECHNOLOGIES TO MAXIMISE EFFICIENCY

LP-EGR technology without AdBlue®: models that run IVECO’s 2.3-litre F1A engine with Low Pressure Exhaust Gas Recirculation are ideal to keep the vehicle management as simple as possible. A host of features such as the variable displacement oil pump and the turbocharger will ensure you enjoy excellent fuel economy and lower running costs – as well as more power and torque.

SCR technology: models with 2.3-litre F1A or 3.0-litre F1C engines featuring Selective Catalytic Reduction after-treatment solution benefit from this simple system that doesn’t change the combustion process, so you have all the power and efficiency you need with low operating costs.

The brand new 2.3 litre F1A engine featuring the SCR technology is the “one-step-ahead” engine, anticipating the future. It has been tested and verified for the more stringent regulations starting from 2020 that will measure emissions in real-life driving conditions (RDE), in addition to the laboratory homologation cycle.

Natural Power technology: Daily Natural Power delivers the same performance and transient response as its diesel equivalent, because it features a true diesel engine adapted to run on Compressed Natural Gas. It is a clean-running vehicle and remarkably quiet, which is an added benefit in urban areas with low emission zones.

THE WIDEST ENGINE AND GEARBOX LINE-UP

The Daily E4S uses advanced engine and transmission technologies to deliver the top class performance and outstanding fuel savings that you need to complete your missions effectively, reliably and with remarkably low environmental impact.

EXPERIENCE ULTIMATE EFFICIENCY IN YOUR MOBILE OFFICE

The functional dashboard combines style with practical and useful features. You can plug in your mobile phone or tablet and recharge another device in the 2 USBs, and you can add the optional inductive charger. The quality and layout of the controls make it easy to drive comfortably.

The numerous storage compartments have been designed to maximise accessibility. Up to 18 of them, including a new and useful open compartment, are strategically placed around the cab and easy to reach, so that you can keep your documents and work materials organised and handy.

EXPERIENCE ULTIMATE COMFORT

The cab is now even quieter as the interior noise level has been significantly reduced. The 4-decibel reduction has improved vehicle acoustics and sound recognition by 8%.

The comfortable interior, enhanced with a new leather steering wheel, together with the blue seat upholstery and the new textile foam headrest, provide a professional environment where you and your passengers can work productively and in full safety.

The new DAB radio integrated in the dashboard offers all the main DAB and FM features: for example, you can select the radio station by name, read the title of the programme or song you are listening to, set it to receive traffic and weather announcements, and pre-set up to 15 stations, to name a few.

The easy-to-read redesigned cluster coupled with the proven ergonomics of the dashboard controls, where everything is close at hand and in its right place, make it easy to drive safely and comfortably.

The door panel has been redesigned with an open compartment where, for example, you can store the first aid kit. The cab offers up to 18 practical storage compartments so that you can keep all your personal and working materials close at hand and organised.

The dashboard and door panel finishing are available in a full black version and, for those who are looking for exclusivity, in the stylish two-colour blue and black version designed for complete harmonisation with the cab upholstery.

ON-BOARD CONNECTIVITY

THE SIMPLE WAY TO KEEP YOUR BUSINESS CONNECTED

The Daily EUS introduces a new way of delivering connectivity: you don’t need any additional equipment, just your smartphone or tablet. Once you’ve downloaded the DAILY BUSINESS UP™ app on your device, it will automatically establish a Bluetooth® connection with the vehicle once paired with the DAB radio; it is now fully integrated and in direct communication with your Daily EUS and its engine. Now you’re set with DAILY BUSINESS UP™ on your device: just start the engine, switch the radio on, and you are connected. You can enjoy the benefits of the dual role it can play for your business, driver and business assistant.

YOUR DRIVER ASSISTANT

DAILY BUSINESS UP™ can serve as the driver’s instructor through the Driving Style Evaluation system, as navigator with the Sygic Professional GPS navigation system, and help increase efficiency in the day-to-day work as well as ensuring the vehicle remains in top condition.

And, of course, it provides all the multimedia infotainment features you might expect to find in a high-end car.

The conveniently placed tablet holder can hold smartphones and tablets of different sizes.

With DAILY BUSINESS UP™ you can:
• Get on-the-job driving instruction with the Driving Style Evaluation system
• See trips analytics for each one individually or for aggregated trips
• Find the best route with the Sygic professional GPS navigation system
• Monitor additional vehicle functions with the extended dashboard
• Easily check the Interactive User Handbook if you need any information about your vehicle
• Manage multimedia content and smartphone functions including listening to text messages
• Contact IVECO Assistance Non-Stop, the 24/7 roadside assistance service

Sygic Professional GPS navigation and Sygic FleetWork for better workforce management have been provided in partnership with Sygic.

The screens above show just a few of the multiple features of the DAILY BUSINESS UP™.

YOUR BUSINESS ASSISTANT

DAILY BUSINESS UP™ can help you schedule jobs and communicate your updates in real time to your driver. You can organise your driver’s itinerary and assignments in order to optimise the use of the vehicle, and manage your fleet efficiently to the benefit of your business.

With DAILY BUSINESS UP™ you can:
• Optimise your fleet’s deployment, schedule jobs and dispatch them in real time to the drivers with Sygic FleetWork which is fully integrated with the vehicle’s Sygic GPS navigation system
• Monitor your fleet’s performance thanks to the new web customer portal
• Keep track of the routes taken and consult the driving style to improve consumption
• Monitor your driver’s operation consulting the new multivehicle card
• Improve your driver’s performance with DSE on-the-job training
• Keep track of scheduled services with Maintenance Plan alerts
• Keep in touch with IVECO and up-to-date with the latest Daily news
• Find the nearest IVECO Dealership and Service point
• Access all the vehicle’s information at a touch of the screen

UNRIVALLED PERFORMANCE

TOP-NOTCH ENGINES TO UNLEASH YOUR TALENT

The Daily E6 is designed to deliver all the traction, load carrying capacity, power and quick response you need coupled with excellent fuel efficiency, and you can count on this top-notch performance being maintained over many years of service. You can choose the performance that is the best fit for your mission: maximum power ranges from 116 hp at the entry-level model to 205 hp, the highest in the industry for 4-cylinder engines. The choice includes the new 136 hp VGT and 180 hp models, as well as the F1A 2.3-litre top performer: 156 hp VGT. On top of this, maximum torque can be as high as 470 Nm for the F1C 3.0-litre engine. All engines are optimised for top performance in every mission, and will give you high mileage at maximum efficiency. For transport businesses looking for quiet operation and a sustainable solution, the Daily HI-MATIC Natural Power 136 hp that runs on Compressed Natural Gas is the perfect answer with the best comfort.

UNLIMITED VERSATILITY

A DAILY VAN FOR BOUNDLESS AMBITIONS

The Daily E6 is the most versatile vehicle in its class with the widest line-up in the industry. It is the only van that ranges from 3.3 to 7 tonnes of gross vehicle weight, and from 7.3 m³ up to 19.6 m³ cargo volumes. With its endless versatility, it opens up a wealth of possibilities for a wide variety of missions from urban multi-stop deliveries, such as parcel or courier service, to heavier transport missions like moving furniture. The number of bodywork options available offers an extensive variety of possible missions, making it easy to customise and turn into a rescue vehicle or an ambulance, for example. The Daily E6 has applied its sound business instinct for the transport industry to anticipate your needs: whatever your mission, you can find the model that matches your requirements - it is capable of completing your missions with ease, efficiently and with low cost of ownership, and with a kind eye to the environment, contributing to your business’s sustainability.

The range offers a choice of versions to fit your transport requirements:

INNATE ROBUSTNESS
FORGED TOUGH. NO ONE EVEN COMES CLOSE

The Daily van was born to handle the most demanding jobs. It has the DNA of a truck and is built like one. With GAW ranging all the way up to 7 tonnes, it will carry its maximum load weight all day every day if you need it to. The high performance front suspension not only gives excellent vehicle control, but also raises the maximum permissible load. The lighter, very strong QUAD-LEAF suspension, available on all 3.5 tonnes models, allows for a front axle maximum load capacity of up to 1,900 kg. While with the QUAD-TOR suspension on twin wheel models it is as high as 2,500 kg. With the Daily van’s bigger payloads, you will get the job done quicker and with fewer trips, saving on running costs and reducing your carbon footprint.

The high payload of the van, up to 4 tonnes, and the biggest cargo volumes up to 19.6 m³ make it possible to move the same volumes in fewer journeys, consequently reducing costs and increasing productivity.

UNIQUE DURABILITY
DESIGNED TO DELIVER ENDURING VALUE

The Daily van has a load capacity no other vehicle in its class can match and it is built to carry on with its high performance day after day, year after year - longer than any other van. The driveline, with its reliable engine and transmission that ensure the engine is always running at optimal speed, will enjoy a long life and maintain its top-notch performance right up to the end. The Daily van will be good for your bottom line every day that it works for you; it doesn’t miss any opportunity to add value to your business!

The Daily van will always get you out of a sticky situation - it will never let you down when you need its strength and power.
THE ABSOLUTE DRIVING PLEASURE

FIRST 8-SPEED AUTOMATIC GEARBOX
IN THE INDUSTRY FOR BEST COMFORT AND SAFETY
The new gearbox generation is designed to provide absolute driving pleasure: with the ergonomic multifunctional shift lever you are fully focused on the traffic and driving conditions. HI-MATIC is the solution for enhanced safety while driving comfortably.

OUTSTANDING FUEL ECONOMY THANKS TO A CHOICE OF ECO OR POWER MODES
It perfectly fits your daily work with the self-adaptive shift strategy. Your Daily HI-MATIC E6G smoothly engages the correct gear in less than 200 milliseconds. With the widest ratio spread, the engine will always be in the optimal gear.

UP TO 10% LOWER MAINTENANCE AND REPAIR COSTS VS MANUAL TRANSMISSION THANKS TO RECORD RELIABILITY AND DURABILITY
Designed with durability in mind, the new solutions protect the engine and transmission to ensure less maintenance. Our engineers have ensured that the legendary durability of the Daily is surpassed.

BEST IN CLASS PERFORMANCE, HIGHEST POWER (205 hp) AND TORQUE (470 Nm)
With an extra wide range of engines available, two displacements 2.3-litre and 3.0-litre, from 116 up to 205 hp and from 320 to 470 Nm of torque, matched with the record gross weight of 7 tonnes, the Daily HI-MATIC E6G offers the best range available for the most demanding tasks.

OUTSTANDING FUEL ECONOMY THANKS TO A CHOICE OF ECO OR POWER MODES

UP TO 10% LOWER MAINTENANCE AND REPAIR COSTS VS MANUAL TRANSMISSION THANKS TO RECORD RELIABILITY AND DURABILITY

BEST IN CLASS PERFORMANCE, HIGHEST POWER (205 hp) AND TORQUE (470 Nm)

The new front grille creates a horizontal line linking the headlamps and giving fluidity to the vehicle’s design. The Daily HI-MATIC E6 family is now even more easily recognisable thanks to the exclusive chrome grille.

READY TO ACCOMPLISH ANY MISSION

Daily HI-MATIC E6 URBAN
Maximum Daily Comfort

Daily HI-MATIC E6 REGIONAL
Maximum Daily Flexibility

Daily HI-MATIC E6 INTERNATIONAL
Maximum Daily Reliability
The transformation in the transport industry is driving a fast evolution towards sustainable technologies in urban transport for goods and people. The Daily Blue Power range offers transport operators the unique advantage of true freedom of choice between three different technologies and benefits to their Total Cost of Ownership.

- **Daily HI-MATIC Natural Power**: the first Compressed Natural Gas engine with an 8-speed automatic gearbox in the LCV industry. The perfect combination of low emissions and drivability for urban areas.
- **Daily Euro 6 RDE 2020 Ready**: the first Light Commercial Vehicle ready for 2020 Real Driving Emissions regulations. A unique offer in the market!
- **Daily Electric**: the zero-emissions vehicle that enables circulation in cities with the strictest traffic restrictions.

With the Daily Blue Power no destination is out of reach for your business so that you can enjoy the power of Unlimited Delivery.
**Daily E6 At A Glance**

**Profit Maker**
- Choose your professional partner from the widest offering in the market
- Save up to 8% of fuel thanks to the Variable Displacement Oil Pump, the Variable Geometry Turbocharger, the EcoSwitch PRO, the reduction in engine weight and the reduced friction in the engines and axles
- Reduce your fuel consumption even further thanks to the real-time driving suggestions of the exclusive Driving Style Evaluation
- Enjoy a 12% reduction on maintenance and repair costs thanks to longer-lasting components and optimized braking system
- Rely on a professional Service Network whenever and wherever you need it

**Sustainable Technology**
- Keep your vehicle management as simple as possible with the LP-EGR technology without AdBlue®—available with the even more powerful F1A 2.3-litre engine
- Get all the power you need with the efficient F1A 2.3-litre engine now combined with our advanced SCR technology
- Experience the absolute driving pleasure with the class exclusive 8-speed automatic gearbox available in the Daily HI-MATIC E6S family
- Enjoy a performance equivalent to a diesel engine with the clean and quiet running of the Daily HI-MATIC Natural Power

**Productive Comfort**
- Enjoy the quiet cab, where the interior noise level has been significantly reduced by 4-decibel improving vehicle acoustics and sound recognition by 8%
- Experience the ergonomic dashboard controls, easily reachable for safe driving
- Organise your personal and working objects in up to 18 handy storage compartments
- Work in a comfortable and professional environment with the new leather steering wheel, the blue seat upholstery and the new textile foam headrest

**On-Board Connectivity**
- Keep your business connected with the unique DAILY BUSINESS UP™
- Optimise your driving performance with the Driving Style Evaluation and the vehicle efficiency management tools
- Always find the best route with the 3D professional navigation system
- Maxime your fleet’s efficiency by scheduling and dispatching jobs through the fully integrated FleetWork
- Monitor your fleet’s performance thanks to the new web customer portal

**Unrivalled Performance**
- Choose the business partner that is the best fit for your missions, available with the 2.3-litre and 3.0-litre engines
- Take advantage of the broad range of power ratings, from 116 hp up to 205 hp, and torque from 320 Nm up to 470 Nm
- Exploit the benefits of the rear traction to drive in optimal conditions while carrying maximum loads

**Unlimited Versatility**
- Whatever your mission, find the Daily E6 that matches your requirements. Ranging from 3.3 to 7 tonnes GVW and cargo volumes from 7.3 m³ to 19.6 m³, it is the most versatile van in its class
- Customise your Daily E6 from the extensive availability of bodywork solutions allowing for a wide variety of missions
- Select the version that satisfies your transport requirements: panel van, semi-widow and windowed van

**Unique Durability**
- Count on the long life of the driveline, ensured by the reliable engine and transmission that always run at optimal speed
- Find your lifelong partner in the Daily E6 and get the full benefit of its excellent value
- Benefit from savings of up to 12% in maintenance and repair costs and 20% more up-time between services, as maintenance intervals extended to 50,000 km

**Innate Robustness**
- Load your Daily to its maximum capacity every day year after year, in the knowledge that it can be relied on to complete every mission effectively
- Get the job done faster and with fewer trips with its bigger payloads of up to 4 tonnes, and the biggest cargo capacities up to 19.6 m³
LINE-UP

CHOOSE THE RIGHT DAILY TO SATISFY YOUR BUSINESS NEEDS

The Daily €/€ van offers the widest model range in the industry, with as many as 8,000 factory versions to choose from. They combine the different wheelbases, power ratings, volumes, internal heights of the load compartment and load capacities to match a broad spectrum of missions. The Daily van was born to serve the transport professional and has followed its sound business instinct throughout the years, anticipating the evolution of the industry and expanding the range to meet the increasingly wide variety of requirements.

CARGO VOLUMES

The wide offering of wheel bases, roof heights and rear overhangs results in a vast range of cargo volumes. In fact, the Daily €/€ is the only van offering cargo volumes from 7.3 m³ right up to the unique 19.6 m³.

MOVING PEOPLE

EXPERIENCE THE COMFORT OF A DAILY JOURNEY

The Daily Minibus €/€ offers the premium comfort, for both driver and passengers, and low operating costs of the other models in this remarkable vehicle family. You will be able to complete all your passenger transport missions and be sure that your customers are traveling in a stylish environment and enjoying the luxurious comfort it offers them, even for long distance journeys.

A DAILY MINIBUS FOR EVERY NEED

The extensive range of the Daily Minibus €/€ is able to meet a wide variety of requirements for different passenger transport missions: tourist mission for traveling with comfort and style, intercity mission with a category-leading passenger capacity and school buses specifically designed for student transport.

Three types of engines are available: Diesel, Natural Power (Compressed Natural Gas for reduced environmental impact) and Electric (equipped with 2 or 3 high-density batteries, combined with super-capacitors).

The Daily Minibus range offers the best performance in its category thanks also to the innovative HI-MATIC 8-speed automatic gearbox designed to ensure maximum performance, minimal running costs, unbeatable comfort and superior gear changes.

At the top of the range, the 6.5 tonnes version can seat up to 22 passengers and offers ample luggage space; it is the best standard vehicle in its class on the market.
ALLOY WHEEL
Only available for single wheel versions. Alloy wheels, the perfect combination of function and style, lighten the overall weight by 6 kg thus increasing the useful load.

WHEEL HUB COVERS
Only available for single wheel versions. The wheel hub cover protects the hub cap and wheel from accidental knocks against pavements, adding to the style of the vehicle.

LEATHER STEERING WHEEL
Enjoy the luxurious feel of the leather steering wheel on your long days at work.

PREMIUM HEADREST
Drive in safety and comfort with the new premium textile foam headrest.

LEATHER STEERING WHEEL
Enjoy the luxurious feel of the leather steering wheel on your long days at work.

ALLOY WHEEL

OPTIONS
TAILOR YOUR DAILY €6 TO FIT YOUR MISSION

DAB RADIO
Enjoy all the functionalities of Digital Broadcasting Radio with high-speed dual tuner and voice recognition. View radio station and programme information on the 4-row display, and receive traffic, weather and news announcements as you go. Connect your smartphone with Bluetooth® so you can drive safely while making hands-free calls.

DAB RADIO + DAILY BUSINESS UP™
Enjoy all the DAB radio functionalities and connect your smartphone or tablet to the vehicle to turn it into your ideal business partner with the DAILY BUSINESS UP™ app.

OPEN COMPARTMENT WITH INDUCTIVE CHARGER
Ensure your mobile device always has a full battery: place it on the useful inductive charger next to your paperwork in the storage compartment integrated in the dashboard.

USB INPUT
Charge your smartphone or tablet with the additional USB plug on the dashboard.

WEBASTO INDEPENDENT HEATER
Cold starts are a thing of the past with the Webasto independent heater: set the timer to pre-heat the engine and the cab, and step into your pleasantly warm Daily van when you are ready to go.

ECOSWITCH PRO
The intelligent EcoSwitch PRO system knows when to step in without intervention from the driver, reducing fuel consumption and further lowering the emissions generated by your Daily.

IVECONNECT
Control the functionalities of your Daily’s infotainment, telephone and navigation integrated system from a practical 7-inch touch-screen. You can connect up to 5 mobile phones with Bluetooth® for hands-free calls and control both radio and phone on the steering wheel.

TABLET HOLDER
The useful tablet holder on the dashboard can safely keep in place mobile devices of all sizes. It can also be used as a practical clipboard to keep your paperwork in place.

PASSENGER BENCH WITH EXTRACTABLE TABLE
Use your laptop and do your paperwork on the practical extractable table.

SUSPENDED SEATS
The suspended seats, also available heated, offer extra comfort for the driver and passengers.

CARGO COMPARTMENT LED LIGHTS
The three new cargo compartment LED lights, positioned on the right and left sides and above the rear doors provide better illumination and reduce energy consumption.

ELECTROMAGNETIC RETARDER
The Telma® LVRS600 electromagnetic retarder provides the vehicle with a braking torque of 350 Nm, with full compatibility with the ESP system. Available also on the Daily HI-MATIC family, it provides up to 80% of vehicle braking needs, reducing brake wear and temperature and increasing vehicle safety. It is enabled from a special lever on the dashboard, and is operated by pressing the brake pedal.

LANE DEPARTURE WARNING SYSTEM (LDWS)
The system gives off a clear acoustic warning signal to warn the driver of any unintentional lane changes due to drowsiness, tiredness or distraction. Standard on models above 3.5 t Gross Vehicle Weight.

CRUISE CONTROL
The system memorises and maintains the vehicle at the speed set by the driver. Particularly suited for interurban missions and in regular traffic conditions, it makes driving more comfortable and optimises fuel consumption.

ECOSWITCH PRO
The intelligent EcoSwitch PRO system knows when to step in without intervention from the driver, reducing fuel consumption and further lowering the emissions generated by your Daily.

DAB RADIO + DAILY BUSINESS UP™
Enjoy all the DAB radio functionalities and connect your smartphone or tablet to the vehicle to turn it into your ideal business partner with the DAILY BUSINESS UP™ app.

REAR AIR SUSPENSION
If your mission requires intensive loading and unloading activity, you will appreciate the rear air suspension, which quickly lowers and raises the loading bed so that you won’t waste any time.

CARGO COMPARTMENT LED LIGHTS
The three new cargo compartment LED lights, positioned on the right and left sides and above the rear doors provide better illumination and reduce energy consumption.

WEBASTO INDEPENDENT HEATER
Cold starts are a thing of the past with the Webasto independent heater: set the timer to pre-heat the engine and the cab, and step into your pleasantly warm Daily van when you are ready to go.

ECOSWITCH PRO
The intelligent EcoSwitch PRO system knows when to step in without intervention from the driver, reducing fuel consumption and further lowering the emissions generated by your Daily.
You can choose how well equipped you want your Daily to be: opt for the well-appointed Business pack or the top-of-the-range Business Premium. In addition, you can choose the pack that matches your business’s missions: Parcel Delivery or Retailer.  

And you can further customise it by selecting and combining the available packs according to the functionalities you need – for example, you could opt for the Towing, Winter or Eco packs. You just need to pick the packs you are interested in from the three categories to help you create the exact model you need for your business.

### Specific Mission Pack

#### Parcel Delivery
- Spare wheel
- Sliding spare wheel carrier
- 270° rear door
- Third stop + spot light
- Rear step with back sensor
- Cab handle access both sides

#### Retailer
- Spare wheel
- Sliding spare wheel carrier
- Wooden floor
- Side cover full height

### Daily E6 Equipment Levels

#### Daily E6
- Cab rear trim panel
- Passenger Bench (with box)
- Electric windows
- Pack service (oil level)
- Tyres 235/65 R16

ACCESSORIES

ENHANCE YOUR DAILY €6 EXPERIENCE

Customize your Daily €6 by choosing from a wide range of high quality accessories developed to enhance the look, comfort, safety, technology and connectivity of your vehicle.

FITTING YOUR MISSION

Give your Daily €6’s load space the best protection with custom designed trim and flooring resistant to humidity, chemical agents and scratches. Choose from a wide range of luggage racks made of lightweight corrosion-proof aluminum that are easy to install. Complete your luggage rack with the tube holder, the beacon holders and the floor platform for the highest versatility of your vehicle.

BRING HI-TECH ON BOARD

Accessory your mobile workstation with the most up-to-date features and technology. The “Full Vision” Multimedia System comes complete with navigation system and rear camera to provide a complete multimedia navigation and reversing safety solution. The Smart Driving Auxiliary System features a GPS Navigation System and Digital Video Recorder with a high resolution camera to record in the case of a collision. If you want to be always connected, opt for the 3G Wi-Fi router, which supports up to 10 Wi-Fi devices simultaneously on line.

ALWAYS SAFE

Choose from a range of accessories to increase your safety when you drive: a Tyre Pressure Monitoring System to ensure your tyres are always at the right pressure to drive fuel efficiently or parking sensors for easy manoeuvring. The pushbar, which has European certification, provides front protection and increases active and passive protection of the vehicle and pedestrians. Keep your vehicle and the load compartment safe with the anti-drilling and anti-picking locks and the immobiliser for electronic and mechanical protection.

MORE ENJOYABLE TRAVEL

Choose the seat covers and mats that are most suitable for your activity. Always have a delicious hot drink within reach with the Lavazza coffee machine. The Daily €6 van offers everything you might want to make your life on board as comfortable as you like.

You can also find the complete accessories line offering in the Accessories Catalogue and in the on-line catalogue using the following link: http://application.cnh-parts-service.eu/iveco.php

Download it for free from the App Store to get exclusive access to extra images, information and video content.

Discover the full accessories offering with the free app “Iveco Accessories”.

IVECO | Accessories
IVECO GENUINE PARTS will keep your Daily running reliably during its long years at your service - and cost efficiently. The wide offering ranges from new and remanufactured parts to servicing kits and telematics solutions. IVECO operates a network of 8 Parts depots and uses advanced technologies to guarantee 24/7 deliveries across Europe.

IVECO is a brand of CNH Industrial N.V., a global leader in the capital goods sector that, through its various businesses, designs, produces and sells agricultural and construction equipment, trucks, commercial vehicles, buses and specialty vehicles, in addition to a broad portfolio of powertrain applications. It also distributes high performance genuine parts for all CNH Industrial Commercial Brands.
THE INFORMATION AND IMAGES IN THIS CATALOGUE ARE PROVIDED AS A GUIDELINE ONLY. IVECO RESERVES THE RIGHT TO MAKE CHANGES FOR ANY COMMERCIAL OR CONSTRUCTION REASONS AT ANY TIME WITHOUT NOTICE.
