

IVECO celebrates production of the 1,600,000th Daily vehicle at its historic Suzzara plant

The iconic vehicle from the Brand's light range reaches a record milestone – a result achieved thanks to dedication of all those who, over the years, have written the history of the Daily

Turin, 6th December 2021

IVECO celebrates the **1,600,000th Daily** vehicle rolling off the assembly line at the **Suzzara plant (in Mantua, Italy)**, the celebrated facility that has always been a reference for IVECO's light vehicle manufacturing. The Daily is a truly iconic vehicle that has continuously reinvented itself for more than 40 years, pushing the boundaries of innovation, versatility and efficiency, anticipating the evolving needs of its customers. It has introduced many ground-breaking innovations and industry-firsts while remaining true to its DNA. These unique strengths are the foundation of the enduring success of the Daily in the market, which leads the high-payload segment with the 7-Tonne model and is a benchmark for natural gas powered light commercial vehicles.

The milestone vehicle is the **new Daily** panel van, a **35C18H V**, equipped with a 3.0-litre, 176-hp Euro VIE Heavy Duty diesel engine.

Giorgio Ricci, IVECO Suzzara Plant Manager, commented: *"We are extremely proud of this important milestone for our plant, which represents more than 40 years of Daily production. This vehicle is a benchmark in the market for its fundamental characteristics, such as its versatility, strength, robustness and performance, which have always set it apart from other vehicles. With increasingly advanced connectivity to meet the business needs of customers, its focus on sustainability, and the traditional values that have always been a part of IVECO's DNA, the new Daily is a high-performing and competitive travelling partner, with a Total Cost of Ownership among the best in its category."*

The team at the Suzzara plant works in perfect synergy at every stage of the production process – from chassis assembly and cab bodywork, to painting and installation of the transmission, all the way to fitting of interior trim and final inspection. The factory also assembles special versions for military and firefighting applications. Since 2007 the plant works to World Class Manufacturing (WCM) standards, a production system that aims for zero faults, wastage and accidents. It involves a process of continuous development, focused on involving every individual operator in the production process.

The plant has recently won the "Special Award: Excellent Culture of Improvement" bestowed by Agamus Consult, an international management consultancy firm, and German magazine Automobil Produktion.

True to the motto, "*Mastering the unpredictable*", with the aim of improving the technology and work environment within the scope of a difficult market and global situation, the Suzzara plant leverages the strategic leadership of its team to guide its people and processes, turning VUCA into an opportunity for continuous improvement.

IVECO

IVECO is a brand of CNH Industrial N.V., a World leader in Capital Goods listed on the New York Stock Exchange (NYSE: CNHI) and on the Mercato Telematico Azionario of the Borsa Italiana (MI: CNHI). IVECO designs, manufactures and markets a wide range of light, medium and heavy commercial vehicles, off-road trucks, and vehicles for applications such as off-road missions.

The brand's wide range of products include the Daily, a vehicle that covers the 3.3 – 7.2 ton vehicle weight segment, the Eurocargo from 6 – 19 tons and, in the heavy segment above 16 tons, the IVECO WAY range with the on-road IVECO S-WAY, the off-road IVECO T-WAY and the IVECO X-WAY for light off-road missions. In addition, the IVECO Astra brand builds off-road trucks, rigid and articulated dumpers as well as special vehicles.

IVECO employs close to 21,000 individuals globally. It manages production sites in 7 countries throughout Europe, Asia, Africa, Oceania and Latin America where it produces vehicles featuring the latest advanced technologies. 4,200 sales and service outlets in over 160 countries guarantee technical support wherever an IVECO vehicle is at work.
