

## Press Release

### **IVECO supplies 72 Daily units to First Ice Glace, subsidiary of the Palmary Food Group, national leader of the production and distribution of chocolates, biscuits, cakes, and confectioneries in Algeria**

*IVECO delivers to First Ice Glace 72 Daily units, the most versatile vehicle in its class that will serve the Algeria territory nationwide.*

*Algiers, 21<sup>st</sup> January 2026*

IVECO delivered **72 units of Daily**, to First Ice Glace company at their facility in Ouled Slama – Boumerdes. A delivery ceremony was held for this occasion.

The 72 units are all **Daily, model 35C15 equipped with a frigo unit** manufactured by the Italian bodybuilder Cold Car and will be employed to distribute and deliver ice cream derived products in Algeria.

**First Ice Glace** is a subsidiary company of **Palmary Food**, the Algerian company specialized in the production of chocolates, biscuits, sponge cakes, and confectionery that has continued to grow since its establishment in 2007. Currently, the company is the fourth largest agri-food exporter in Algeria. It is also a key player in the food industry in Algeria.

**Mr Farouk Mimouni, Purchasing Manager of First Ice Glace**, commented: *"We are very pleased to have IVECO as one of our suppliers, and this coincides with the revival of the brand in Algeria. We hope to collaborate in the future with this great brand for our upcoming purchases"*.

**Ounissa Nacer-Cherif, IVECO Area Manager and Mr. Nabil Laouni, IVECO Business Development Manager for Algeria**, added: *"We are proud to return in the Algerian market by delivering these 72 units. Algeria has always been a key market for IVECO and we are pleased to contribute to the success of First Ice Glace"*.

### **IVECO Daily: Power Your Ambition**

The Daily is the most versatile vehicle in its class. Its extensive model line-up and bodywork options open up a wealth of opportunities: whatever your mission you can find and customize the **Daily to perfectly match your operational and business requirements.**

The Daily offers the widest line-up in the industry – it is the only vehicle in its class that ranges **from 3.5 ton all the way up to 7.2 ton of gross vehicle weight**, with wheelbases from 3000 to 5100 mm, opening up a wealth of possibilities for a wide variety of missions from urban deliveries to heavier transport jobs in the construction sector. It is designed and built to offer endless bodywork options, making it easy to customize for your specific needs. It is perfect for highly specialized and demanding adaptations, such as rescue vehicle or ambulance.

### **New memory foam seats: adapt to the driver to provide supreme comfort.**

The Daily features entirely new driver seat with central pads of the cushion and backrest in memory foam – an industry first for Light Commercial Vehicles. The foam moulds to the body, distributing the weight evenly, **reducing pressure peaks by up to 30%**. This results in supreme comfort and protects from back pain. The side sections have been thickened with 15mm of high-density foam to improve lateral containment, enhancing safety and the driving experience. Taller people will be more comfortable the 20 mm longer and 15 mm thicker front cushion, which provides better support for their longer legs. The seat side carter and levers have been redesigned to make it easier to get on and off the vehicle, ideal for door-to-door and parcel delivery missions that require frequent exits.

## **IVECO**

IVECO is a brand of Iveco Group N.V. (EXM: IVG). IVECO designs, manufactures and markets a wide range of light, medium and heavy commercial vehicles, off-road trucks and vehicles suitable for any body type.

It constantly innovates and extends its product portfolio to provide every customer with the vehicle that matches their mission precisely. IVECO's full-line offer is designed around the Driver's needs to ensure an excellent experience with a focus on safety and comfort. A wide range of advanced digital, connectivity-enabled services developed to help fleet owners run their fleet efficiently enhance IVECO's complete transport solution.

IVECO pursues its decarbonisation strategy through a multi-energy approach that includes the further development of diesel and HVO, natural gas and bio-methane, battery electric and hydrogen technologies.

It has established a global presence with a manufacturing footprint that includes 7 production sites and 8 Research and Development Centres. 3,300 sales and service outlets in over 160 countries guarantee technical support wherever an IVECO vehicle is at work.

Guided by its 'Spirito in Movimento', IVECO is transforming the transport industry driven by groundbreaking advancements in technology, sustainability, and design, with the ambition to be the most reliable partner and premium, full-line player for its customers.
