INSTRUMENTS AND CONTROLS)**

**100%
CONNECTED**

Every mission has a EUROCARGO right for it.

VERSATILE

From the urban environment to the most inaccessible off-road locations, Eurocargo can manage them all.

ROBUST

The parallel straight frame ensures strength and light weight. The most robust choice for all missions.

CAPABLE

From the city centre to the harshest conditions, Eurocargo is capable for your need.

CONNECTED

IVECO Connected Services are designed to maximize uptime and your business productivity.

Exterior style.

Stylish in all environments.

The external appearance of the Eurocargo combines style with functionality. Headlamps with LED daytime running lights as standard, radar for ADAS functions, steps and grab handles to access the windscreen and side air deflectors designed to keep the door and mirrors clear even in adverse weather conditions.

2 Steps

Interior comfort.

Driver comfort and ease of use are the hallmarks for the Eurocargo cab. The new dash panel with the 10 inch instrument cluster and the 7 inch central display screen incorporating DAB radio provide the driver with all the information they need. The new steering wheel and steering column controls ensure that all is within fingertip reach of the driver.

Advanced Driver Assistance Systems (ADAS).

When technology takes care of your safety and that of other road users to give you a calm, stress-free driving experience.

General Safety Regulations.

The latest European General Safety Regulations have brought to Eurocargo new features for Advanced Driver Assistance Systems and protection of other road users.

Cyber security.

Cyber security has also been addressed. IVECO has developed Cybershield, a multi level security framework covering Electronic Control Units, internal vehicle ECU to ECU communications and all external interfaces to ensure that the vehicle is fully protected from Cyber attack.

Lane Departure Warning System (LDWS)

The LDWS alerts you when the vehicle changes lanes without the direction indicators activated.

Electronic Vehicle Stability Control (EVSC)

The EVSC system monitors lateral loads and reduces power and applies brakes to control potential spins or rollover.

Advanced Emergency Braking System (AEBS)

The AEBS system measures the distance from the vehicle in front and calculates the time of a potential collision if the driver is distracted. The brakes are applied automatically to reduce the vehicle speed and risk of collision.

Adaptive Cruise Control (ACC)

ACC adjusts the vehicle set speed to maintain a safe distance to the vehicle in front.

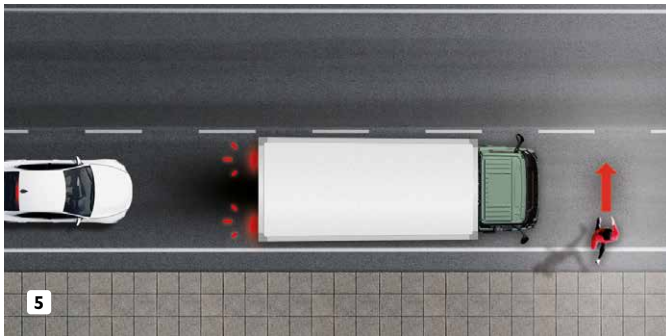

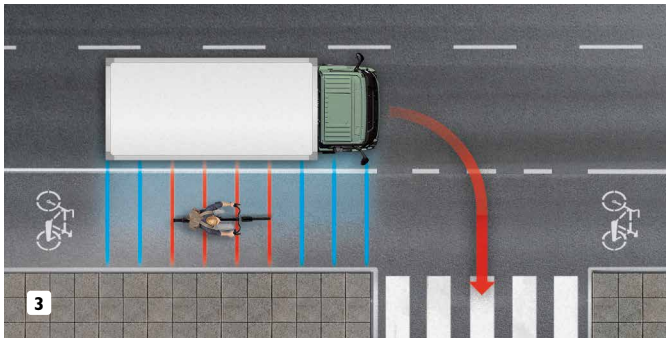

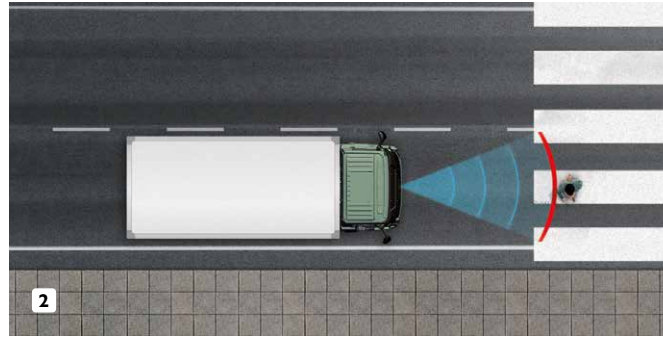

Reversing Detection (REV)

This system shows the driver the view from the rear of the vehicle when reversing. It is achieved with a camera and the centre display screen on the dashboard.

Safety for all road users.

Advanced Driver Assistance System – ADAS

When technology takes care of your safety and that of other road users to give you a calm, stress-free driving experience.

1 ADDW: ADVANCED DRIVER DROWSINESS ATTENTION WARNING

This feature monitors the driver alertness and provides a warning when they are drowsy. It helps to avoid dangerous situations for the driver, passengers and all others road users.

2 MOIS: MOVING OFF INFO SYSTEM

The system detects and informs the driver of the presence of pedestrians and cyclists in the close-proximity forward blind-spot of the vehicle.

3 BSIS: BLIND SPOT INFO SYSTEM

The Blind Spot Information System (BSIS) monitors the vehicle side and front side and warns the driver about Vulnerable Road Users in close-proximity.

4 TPMS: TYRE PRESSURE MONITORING SYSTEM

TPMS has the aim to constantly monitor the status of Pressure and Temperature of the tyres and provide warning to the driver whenever a problem occurs.

5 ESS: EMERGENCY STOP SIGNAL

ESS enhances safety by flashing the stop lamps to warn other road users to the rear if heavy or emergency braking is being applied to the vehicle.

Driving pleasure.

Every moment driving the Eurocargo is a pleasure thanks to the performance and driveability enhanced with the new instrumentation, the new multifunction steering wheel and new column stalk controls. The added safety provided by the new ADAS features gives reassurance from the city to the highway. With 100% connectivity, the driver is always able to feel connected.

100% connected brings a world of services.

All of our vehicles comes with connectivity box installed, allowing the full control of your vehicle performance and state of health. Activate the Start Pack Standard to discover the potential of IVECO Services Solutions. The Start Pack Standard includes IVECO ON Access customer portal.

Versatile.

The right driveline for your mission.

The Tector 7 is a 6.7-litre, six-cylinder diesel engine available in 280 to 320 hp versions, delivering up to 1.100 Nm of torque.

The engine is mated to the 8 speed ZF automatic transmission to ensure the optimal driveline. A 6 speed Allison automatic transmission is also available for those missions that require it.

Tector 7

DIESEL ENGINES

Euro VI engines	No. of cylinders	Displacement	Power	Max torque
Tector 7	6 in line	6,7 litres	206 kW (281 hp) at 2.500 rpm	1.000 Nm from 1.250 to 1.950 rpm
			235 kW (320 hp) at 2.500 rpm	1.100 Nm from 1.250 to 1.900 rpm

Line up.

Diesel engine range 4x2 and 4x4.

Choose from GVMs, wheelbases, engine powers, transmission, suspension and cab types. A line up that will meet all requirements.

Suspensions.

You can choose the suspension type to suit any mission:

- Parabolic leaf springs for on road use.
- Air suspensions controlled by an ECAS (Electronically Controlled Air Suspension) system to guarantee a constant vehicle height regardless of the load, they can be fitted to the rear axle, allowing the vehicle to raise and lower to meet loading decks.

4X2 DRIVE – DIESEL ENGINE

Model	GVM (kg)	Max. GCM (kg) up to	Cabs	Engines			Gearboxes	Suspension	Wheelbase (mm)
				Type	Power (hp)	Torque (Nm)	Automatic		
I40E	14.000	17.500 22.000 (Tipper Pack)	Day Cab Sleeper Cab	T7 6,7 l	280	1.000	8 speed ZF 6 speed Allison	Mechanical Rear Air	4.185 - 5.670

				Type	Power (hp)	Torque (Nm)	Manual		
I50E	15.000	19.000	Day Cab	T7 6,7 l	320	1.100	6 speed	Mechanical	3.915 - 4.150

Applications.

Urban delivery in the city, Regional delivery city to city, Construction, Municipal and off-road, Eurocargo has always got the ideal vehicle for your mission even for the most specialised applications.

IVECO Services Solutions.

The complete development of state-of-the-art vehicles is important to provide our customers with Mobility Solutions that best meet their needs. At IVECO, our goal is to improve the productivity and profitability of our customers' businesses. We do this by maximising vehicle uptime and efficiency, driver safety and environmental protection.

Uptime

IVECO Uptime Services are designed to maximize your vehicle's uptime by avoiding unplanned stoppages through real-time vehicle monitoring, remote diagnostics and maintenance and repair schedules.

Productivity & Efficiency

IVECO helps you reduce fuel consumption, optimise routes and improve your drivers' driving style through vehicle performance reporting and analysis, for a more productive and efficient business with lower running costs.

Driver Care and Safety & Security

Improves comfort and safety levels to make the driving experience easier and more enjoyable. Driver Care services are meant to assist you throughout your journey, making your experience behind the wheel easier and more comfortable. Safety & Security services are designed to promote a safer driving style, monitor the drivers' performance and increase on-road safety.

Parts & Accessories

Our extensive offer of high-quality parts and services enables you to customize your vehicle and enhance your life on board.

IVECO ON Connectivity Service Bundles.

All Eurocargo models come installed with a connectivity box, allowing you to activate the Standard Start Pack and combine it with a choice of Premium Connectivity Solutions tailored to your business objectives (terms and conditions apply).

Start Pack.

A set of connectivity services that allows you to monitor and manage the performance of your fleet, and includes the following services:

- **IVECO ON Access** for you to monitor your vehicles and optimize your fleet's performance and efficiency.
- **Uptime Monitoring & Management** to ensure you maximize your vehicles uptime.
- **Easy Cargo App** to make your life as a driver easier on board and remotely.

Premium service bundles.

You can tailor your Mobility Solution with additional Premium bundles.

Productivity Pack

You can boost your productivity by extending the Start Pack standard with:

- **IVECO ON Plus**, which enhances your IVECO ON experience with real time vehicle positioning updates.
- **IVECO web API** to manage your fleet effortlessly with your own fleet management system.

Safety Pack

Enhance your safety on the road and your vehicle's security with:

- **IVECO ON Plus**, which enhances your IVECO ON experience with real time vehicle positioning updates.
- **IVECO Web API**, to manage your fleet effortlessly with your own fleet management system.
- **Professional Safe Report** to evaluate and improve your driving style to be safer on the road.

Maintenance & Repair and Extended Warranty.

Experience peace of mind with IVECO's customisable TCO solutions that keep your business on the road, maximise savings and optimise your fleet's performance.

Benefits of IVECO Maintenance & Repair Agreements

Control of Running Cost

- Our customised solutions provide better fleet management and control.
- Maintain cashflow and budget certainty with predictable running costs of your IVECO fleet.
- Contain your maintenance and repair costs.

Quality Maintenance & Repairs

Your IVECO vehicle is serviced according to IVECO's exacting recommendations, utilising genuine parts and factory trained technicians for true peace of mind and residual value.

Maximum Uptime

Maximise vehicle uptime through efficient and timely service and repairs, delivered by the national IVECO dealer network for better productivity.

Benefits of Extended Warranty

Peace of Mind

Provides protection beyond the standard product Warranty Period.

Flexible Plans

Choice of plans to meet individual needs.

Quality Repairs

All eligible repairs are carried out utilising Genuine IVECO Parts fitted by factory trained technicians.

Genuine Parts

HIGH PERFORMANCE

IVECO Genuine Parts will keep your Eurocargo performing at its best during its long years at your service – and cost-efficiently. With these parts, you will enjoy the peace of mind of knowing they have been rigorously tested for safety, consistency and reliability, and come with a one-year warranty.

Accessories

ENHANCED EXPERIENCE

IVECO Accessories

Customize your Eurocargo to perfectly match your requirements with our wide range of high-quality accessories specifically designed to boost your vehicle's efficiency and performance, increase your safety, and enhance your comfort.
