

## Shell and IVECO consolidate collaboration to support the use of LNG in transport with the development of the distribution network

*Shell embraces IVECO's natural gas strategy and supports its commitment to promoting the use of LNG in road transport with the development of a European LNG station network.*

*IVECO participates in Hamburg at the inauguration of the first Shell LNG Retail station for trucks in Germany.*

*Shell takes part in IVECO's Diesel-free Low Emission Area stand at IAA 2018 to promote the benefits of alternative traction technologies: electric, Compressed Natural Gas and Liquefied Natural Gas.*

PRESS RELEASE

*Hanover, 19 September 2018*

IVECO participated in the official inauguration of global energy supplier Shell's first LNG Retail station in Germany. Located in the south of Hamburg, strategically placed near the Hamburg Süd motorway interchange and motorway triangle, the station has the capacity to refuel more than 200 trucks a day. IVECO's participation at the event is part of its collaboration with the energy company to promote the development of the alternative fuels network in Germany.

**Pierre Lahutte, IVECO Brand President**, spoke at the event, thanking Shell for its commitment to developing the infrastructure needed for the successful transition to alternative traction vehicles in transport: *"Shell embraces our strategy and shares our belief in the key role that natural gas has to play in the de-carbonisation of the transport industry. IVECO has the answer today for every business and every mission with a full offering of natural gas vehicles, from LCVs all the way to heavy long-haul trucks and buses. We see the demand of our Stralis NP truck increase exponentially in Western Europe, as a growing number of companies demand their logistics operators to deliver environmentally-friendly transport. For this trend to continue and natural gas to fulfil its potential, the necessary infrastructure needs to be in place in Germany and Central Europe. That is why our approach to sustainability extends to supporting the development of the refuelling station network through partnerships such as the one we have with Shell."*

**Shell will also be at IVECO's side at the IAA Commercial Vehicles (IAA)** to promote the development of the networks of electric charging stations and CNG and LNG refuelling stations in Germany. The energy company will be present at IVECO stand displaying a CNG and LNG refuelling station and an electric charging station, as well. In addition, Laurant Wetemans, Shell LNG Marketing & Trading General Manager, who will speak about the collaboration at the IVECO Press conference.

## IVECO

*IVECO is a brand of CNH Industrial N.V., a World leader in Capital Goods listed on the New York Stock Exchange (NYSE: CNHI) and on the Mercato Telematico Azionario of the Borsa Italiana (MI: CNHI). IVECO designs, manufactures and markets a wide range of light, medium and heavy commercial vehicles, off-road trucks, and vehicles for applications such as off-road missions.*

*The brand's wide range of products include the Daily, a vehicle that covers the 3.3 – 7.2 ton vehicle weight segment, the Eurocargo from 6 – 19 tons, the Trakker (dedicated to off-road missions) and the Stralis, both over 16 tons. In addition, the IVECO Astra brand builds off-road trucks, rigid and articulated dumpers as well as special vehicles.*

*IVECO employs close to 21,000 individuals globally. It manages production sites in 7 countries throughout Europe, Asia, Africa, Oceania and Latin America where it produces vehicles featuring the latest advanced technologies. 4,200 sales and service outlets in over 160 countries guarantee technical support wherever an IVECO vehicle is at work.*
