

## IVECO supplies 65 IVECO S-WAY LNG trucks to Lithuanian transport operator Vlantana

*Vlantana has chosen the IVECO S-WAY LNG to complement its fleet of environmentally friendly Natural Gas vehicles. The company's commitment to sustainable transport operations extends to plans for the construction of Lithuania's first natural gas filling station on its premises.*

Turin, 11<sup>th</sup> November 2021

IVECO has completed the delivery of **65 IVECO S-WAY Gas trucks in LNG version** to transport operator Vlantana. The company, which has a running park of 1,650 vehicles, is significantly extending its gas fleet with the new vehicles. It has chosen IVECO's gas trucks for their environmental performance when running on LNG or Bio-LNG.

Founder of Vlantana Vldas Stončius stated: *"Vlantana's decision to convert part of our fleet to Gas with IVECO S-WAY LNG trucks is testament to our belief in sustainable and eco-friendly solutions as well as in the operational and financial benefits of gas. We have put our trust in IVECO in our choice of vehicles to deliver green transport services to our customers. With our IVECO S-WAY LNG vehicles, we will enjoy all the advantages of a truly sustainable and effective transport solution with best-in-class Total Cost of Ownership."*

The acquisition of IVECO S-WAY LNG trucks is a part of Vlantana's long-term strategy, which has a strong focus on the environment. In its commitment to delivering green transport, the company is taking the lead in Lithuania, beginning to convert its fleet to gas-powered early on, before the existence of a fuelling network in the country. It is also planning to invest in a natural gas filling station on their premises near Klaipėda, close to Lithuania's main motorway. This will be the first station in the country.

In a first phase, Vlantana will use the new IVECO S-WAY LNG trucks on European routes where the distribution network is in place. The European Union's Green Deal is driving a strong focus on sustainable transport solutions across its member states, where the number of refuelling stations is growing fast and already covers the main transport corridors. Vlantana's IVECO S-WAY LNG trucks will be able to avail themselves of these filling stations and benefit from initiatives introduced in various countries to support the development of this sustainable fuel, while contributing to a more sustainable transport sector.

The IVECO S-WAY LNG is the undisputed leader for sustainable long-distance haulage. These trucks will enable Vlantana to deliver logistics solutions with dramatically lower particulate matter and NO<sub>2</sub> emissions compared to Diesel and, when running on biomethane, 95% less CO<sub>2</sub>. In addition to their environmental benefits, the IVECO S-WAY LNG trucks also deliver best-in-class fuel autonomy up to 1,600 km, efficiency without compromise in every mission, significant savings with a TCO significantly lower than an equivalent diesel truck, and a superior onboard driving and living experience.

## IVECO

*IVECO is a brand of CNH Industrial N.V., a World leader in Capital Goods listed on the New York Stock Exchange (NYSE: CNHI) and on the Mercato Telematico Azionario of the Borsa Italiana (MI: CNHI). IVECO designs, manufactures and markets a wide range of light, medium and heavy commercial vehicles, off-road trucks, and vehicles for applications such as off-road missions.*

*The brand's wide range of products include the Daily, a vehicle that covers the 3.3 – 7.2 ton vehicle weight segment, the Eurocargo from 6 – 19 tons and, in the heavy segment above 16 tons, the IVECO WAY range with the on-road IVECO S-WAY, the off-road IVECO T-WAY and the IVECO X-WAY for light off-road missions. In addition, the IVECO Astra brand builds off-road trucks, rigid and articulated dumpers as well as special vehicles.*

*IVECO employs close to 21,000 individuals globally. It manages production sites in 7 countries throughout Europe, Asia, Africa, Oceania and Latin America where it produces vehicles featuring the latest advanced technologies. 4,200 sales and service outlets in over 160 countries guarantee technical support wherever an IVECO vehicle is at work.*
