

## IVECO celebrates significant milestone with the 1,800,000<sup>th</sup> Daily rolling off the line at Suzzara plant

Turin, 29<sup>th</sup> July 2024

IVECO celebrates the milestone of 1,800,000 vehicles produced at the Suzzara plant in Mantua, Italy, the facility that has gained a reputation for excellence in light vehicle manufacturing. It is the home of the iconic Daily, a pioneering vehicle that has continuously reinvented itself, introducing many ground-breaking innovations and industry-firsts while remaining true to its DNA. With its exceptional versatility, it perfectly matches the specific requirements of customers, whatever their mission. The Daily has built its enduring success in the market on these unique strengths, leading the high-payload segment with the 7-ton model and serving as a reference point in the natural gas light commercial vehicle sector. The Daily has now further consolidated its position as a leader in sustainable transportation solutions by becoming fully electric across its entire in its whole line-up.

The milestone 1,800,000<sup>th</sup> vehicle is the **new eDaily**, the electric twin of the iconic Daily, in a cab version assembled in Suzzara and electrified at the Brescia plant.

**Fulvio Carillo, IVECO Suzzara Plant Manager**, stated: *"The milestone achieved testifies to the success of our Daily, a vehicle produced at our Suzzara plant for over 45 years. This enduring success highlights the growing market presence of a commercial vehicle that has set new standards of innovation. Its strengths lies in its versatility and efficiency, qualities that have been repeatedly recognized throughout its history. We take immense pride in this achievement, knowing that the Daily has earned popularity among customers who value its exceptional versatility, durability, and distinctive performance."*

Despite the Daily's market solidity, IVECO has continuously introduced innovations in on-board technology and in-cabin functionality, as well as expanding its portfolio of services enabled by advanced connectivity, to make the Daily the ideal partner for every customer, covering every mission. Since 2007 the plant works to a specific production system that aims for zero faults, wastage and accidents. It involves a process of continuous development, focused on involving every individual operator in the production process.

The 1,800,000<sup>th</sup> vehicle has been delivered to **Tesco**, the UK's leading supermarket. It is part of a home delivery fleet of 571 electrified vehicles the chain has deployed.

Tesco has been running IVECO Daily vehicles in its delivery fleet since 2010. These vehicles are ideally suited to deliveries in urban environments with the class-leading turning circle that makes manoeuvring effortless. The company has chosen IVECO for transitioning its fleet to green transport by introducing the eDaily, which enables zero-emissions deliveries to customers via its innovative modular battery setup. Its electric motor efficiently delivers a strong performance with 140kW and 400Nm of torque deployable. Capable of rapid charging at 80kW, 62 miles of range can be added in just 30 minutes, while a 22kW onboard charger enables Tesco to maximise charging from AC chargers at local stores.

## IVECO

*IVECO is a brand of Iveco Group N.V. (EXM: IVG). IVECO designs, manufactures and markets a wide range of light, medium and heavy commercial vehicles, off-road trucks and vehicles suitable for any body type.*

*It constantly innovates and extends its product portfolio to provide every customer with the vehicle that matches their mission precisely. IVECO's full-line offer is designed around the Driver's needs to ensure an excellent experience with a focus on safety and comfort. A wide range of advanced digital, connectivity-enabled services developed to help fleet owners run their fleet efficiently enhance IVECO's complete transport solution.*

*IVECO pursues its decarbonisation strategy through a multi-energy approach that includes the further development of bio-methane, battery electric and fuel cell technologies.*

*IVECO manages production sites in 7 countries throughout Europe, Asia, Africa, Oceania and Latin America. 3,500 sales and service outlets in over 160 countries guarantee technical support wherever an IVECO vehicle is at work.*

*IVECO drives the road of change by powering the transformation of the transport industry, propelled by the ambition to be the most reliable partner and full-line player for its customers.*
