

IVECO

Drive the road of change

T-way

Image for illustration purposes only

A large, dark grey IVECO T-WAY truck is shown from a front-three-quarter view, parked on a dirt road in a quarry. The truck's front grille features the 'IVECO' logo in large, silver, block letters. Below the grille, a badge reads 'IVECO T-WAY'. The truck has a large side mirror and a roof-mounted orange warning light. The background consists of a steep, layered rock face of a quarry under a clear blue sky.

IVECO T-WAY

drive the new way

The IVECO T-WAY is the vehicle you want for the toughest missions in the most extreme conditions. With its perfect combination of robustness, reliability and comfort, it is designed to meet your requirements and exceed all your expectations on productivity, payload capacity, and safety.

With the legendary robustness of its chassis and components, it is built to perform extreme off-road missions, with 40-tonne GVW. With advanced engineering and technological solutions, it can be relied on to deliver a consistently high performance in the most arduous off-road applications and hostile environments.

The IVECO T-WAY raises the driver's on-board experience to a new level with the new cab designed around their needs. It integrates the most advanced features of the new IVECO WAY range to provide an extremely comfortable and safe environment. Its advanced connectivity introduces a host of services developed to make the driver's life easier and maximise the vehicle's uptime.

Robustness and reliability

The IVECO T-WAY has been engineered and built to guarantee reliability and durability in the toughest challenges and environments. The legendary robustness of the high resistance steel chassis with a 10mm thick frame, combined with the suspension system's high resistance, contribute to the excellent performance in the harshest conditions.

The new rear axles and the new-design air suspension for tandem axles have been tested in the harshest conditions.

The redesign of a number of components contributes to a kerb weight optimisation up to 500kg, increasing the IVECO T-WAY's payload capacity.

New functional design

The cab has been entirely redesigned focusing on functionality to facilitate the driver's daily work with features that improve visibility, protect from dirt, and much more. The new design also simplifies maintenance and repair operations, making it easier to change components. The chassis layout has been entirely reviewed to facilitate the customisation of bodybuilders.

Premium driving comfort

The cab has been entirely redesigned focusing on functionality to facilitate the driver's daily work with features that improve visibility, protect from dirt, and much more. The new design also simplifies maintenance and repair operations, making it easier to change components. The chassis layout has been entirely reviewed to facilitate the customisation of bodybuilders.

Infotainment

Bring your digital life on board with smartphone mirroring and innovative features

Twilight & rain sensor

Automatically turns on the headlights and windscreen wipers (Optional)

Integrated Hvac System

Heating, ventilation and air conditioning with "Eco-mode" function

Key lock area

Turn the engine on and off by simply pushing the Start/Stop button

Steering wheel

All the vehicle's key functions at your fingertips

Dashboard AD-AT cab

The T-WAY seats come with fabric upholstery, with luxurious cushions.

The T-WAY comes with a leather steering wheel with a distinctive flat shape.

Internal AD cab

Mobility and safety on all terrains

The IVECO T-WAY can rely on a vast range of features and functionalities to perform every type of mission flawlessly, delivering consistently high productivity on all terrains and conditions. It will complete your mission efficiently, ensuring the highest safety levels on- and off-road.

HI-TRONIX gearbox with off-road functionalities

With the 16-speed HI-TRONIX automated gearbox you can benefit from a host of functionalities such as Rocking Mode, Off-road Mode, Creeping Mode and 4 reverse gears to tackle with ease the toughest off-road conditions.

Fully modular suspension concept

The IVECO T-WAY offers ultimate flexibility with a choice of air and mechanical suspensions – both parabolic.

AWD & PWD

The IVECO T-WAY offers a complete line-up of AWD and PWD to meet the requirements of every mission – even the most demanding.

Brake performance and safety improvements

The new architecture of the EBS system, combined with disc brakes on all wheels, has dramatically improved the vehicle's performance, and consequently the safety of the driver, vehicle and other road users.

High versatility to match your mission

The IVECO T-WAY is a highly versatile vehicle: with its legendary robustness, high payload capacity, kerb weight optimisation, and wide offering of features and components, it can be tailored to precisely match the requirements of your mission.

TIPPER

The IVECO T-WAY will drive wherever you need it to go, carrying big payloads in all conditions – from untarmacked roads to extreme off-road terrains, in all weathers and in the harshest environments.

Power take-off

The body lifting hydraulic circuit is driven by a gearbox or engine PTO that delivers the power needed to operate all types of tipper.

Payload

With its robust chassis and weight optimisation, the IVECO T-WAY is designed to be equipped with high-capacity tippers and carry big payloads.

Wide offer of chassis

Choose from a wide offering of wheelbases.

Rear suspensions

The IVECO T-WAY offers a choice of leaf or air suspension in combination with all configurations. Air suspensions maximise comfort and enable you to lower the loading height of the vehicle.

Improved direct and indirect visibility

The aerodynamic design of the mirrors and their optimised positioning further improves visibility. The rear window of the AD/AT cabs provides excellent visibility on the rear of the vehicle.

New ESP and LDWS

Functionalities for safety improvement.

Engines

The line-up offers an engine with a displacement of 9 and 13 litres to deliver the right power and torque for your mission.

Front axle

Leaf spring up to 9 tonnes.

Comfortable and safe access

Well placed handles and footsteps provide safe access to the cab and tipping bridge. The dropdown lowest step is hung with rubber straps to better absorb shocks.

Front and rear disc brakes on PWD configuration

Disc brakes ensure better deceleration, and involve lower maintenance costs and less wear and tear.

A wide variety of missions

Crane & Platform

The IVECO T-WAY can be fitted with every type of crane, from flatbed to platform cranes. The robustness and modular concept of the vehicle enables us to fit cranes at the back of the cab, in a central position or at the rear of the vehicle with no compromise on stability.

Timber

The IVECO T-WAY delivers the high power you need and offers the ideal features to load, transport and unload timber with ease. It will transport your logs comfortably in forests and woods, on the roads, and all the way to your destination: our powerful engines, the robust chassis, big payload capacity and hydrostatic drive are all features designed for this multi-faceted mission.

Spreader

4x4 Configuration defined based on the Spreader application, therefore engine, transmission, Wheelbase are ideal for it. Previous generation used on similar application in Australia/New Zealand, with very positive feedback.

Mining

Designed for Heavy duty off road with optimum Wheelbases and PTO. Designed with Total Cost of Ownership in mind, the T-WAY couples very efficient engines, transmission and Intarder.

Gully cleaner

The IVECO T-WAY is optimised for the easy installation of a gully cleaner body and to provide all the features you need. High performance is essential in this mission, and the optional clutch independent sandwich PTO, designed to unleash up to 2,300Nm, delivers the huge torque required.

Public utilities

The vast choice of configurations and extreme versatility mean that the IVECO T-WAY range is able to meet the requirements of a wide variety of applications – from road resurfacing to snow clearing, from waste collection to road services.

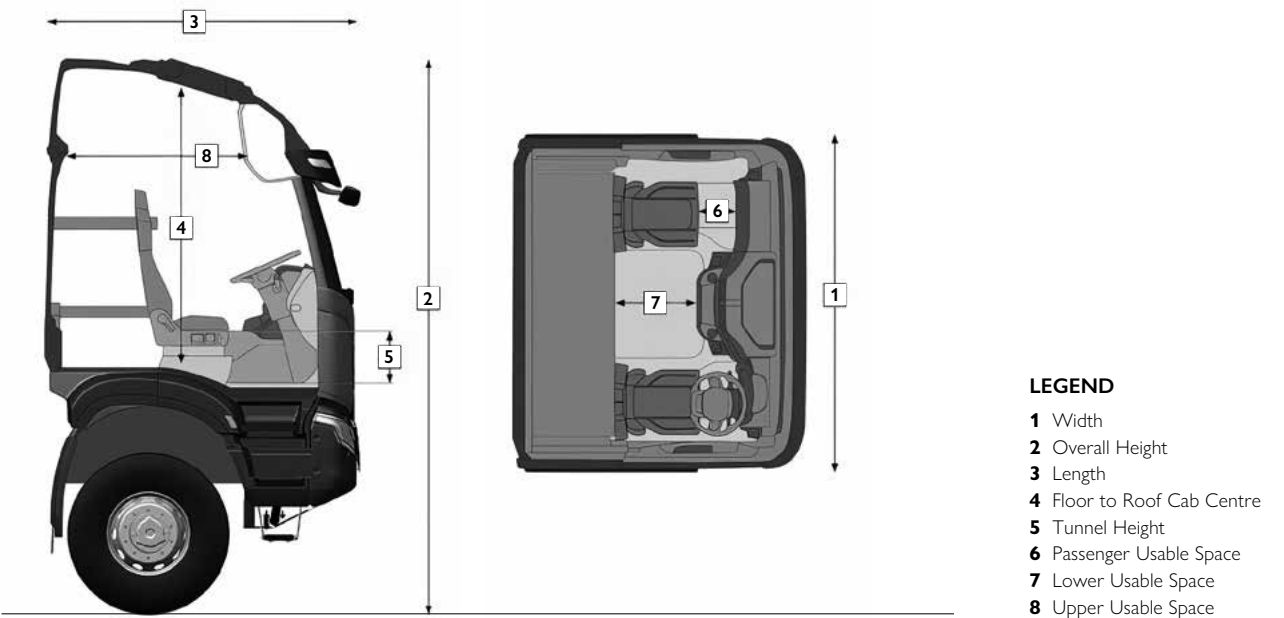

Choose your configuration

The modular, mission-oriented approach of the IVECO T-WAY with a wide choice of features and components, together with the structural strength and low kerb weight, provides ultimate flexibility in customising the vehicle to the specific requirements of a wide variety of applications.

Cabs

The IVECO T-WAY cab line-up offers a choice of cabs to match your mission: the AT sleeper cab with low or medium roof, and the AD short cab with low roof.

		1	2	3	4	5	6	7	8		
	Roof	Width (mm)	Overall Height (mm)	Length (mm)	Floor to Roof Cab Centre (mm)	Tunnel Height (mm)	Passenger Usable Space (mm)	Lower Usable Space (mm)	Upper Usable Space (mm)	Bunk ⁽²⁾	Boarding Steps
AT											
	Low	2,300	3,100 ⁽¹⁾	2,150	1,250	340	370	470	-	1	3
AD											
	Low	2,300	3,100 ⁽¹⁾	1,700	1,250	340	370	-	-	0	3

Dimensions can vary according to the model.

Notes

⁽¹⁾Approximate measures; may change based on suspensions, assembly variables and approximations.

⁽²⁾Upper bed as option.

AT Cab
Lower bunk length 1,950mm, width 540mm

Engines

The IVECO T-WAY offers a wide choice of Euro VI diesel engines to suit all applications. The engines, with 2 displacements and power ratings ranging from 340 to 510hp, deliver class leading power.

Diesel Engine Line-up					
Engine	Displacement (Litres)	Power hp @ rpm	Torque Nm @ rpm	After Treatment System	Emission Standard
Cursor 9	8.7	360 @ 1,530 - 2,200	1,650 @ 1,200 - 1,530	Hi-SCR	Euro VI
Cursor 13	12.9	410 @ 1,370 - 1,900	2,100 @ 900 - 1,370		
		450 @ 1,440 - 1,900	2,200 @ 970 - 1,440		
		510 @ 1,560 - 1,900	2,300 @ 900 - 1,560		

Cursor 9

Cursor 13

Power Take Off					
Dependent/Independent From Transmission		Connection	Ratio	Torque (Nm)	Rotation
Engine PTO					
Switchable	Independent	Pump/Flange	1.12 / 1.14	800	Opposite engine
Not Switchable			1.14 / 1.195		
Sandwich PTO					
Switchable	Independent	Flange	1.02 / 1.27 / 1.56	1,602 – 2,300	Same as engine

Choose your configuration

The modular, mission-oriented approach of the IVECO T-WAY with a wide choice of features and components, together with the structural strength and low kerb weight, provides ultimate flexibility in customising the vehicle to the specific requirements of a wide variety of applications.

Cabs

The IVECO T-WAY cab line-up offers a choice of cabs to match your mission: the AT sleeper cab with low or medium roof, and the AD short cab with low roof.

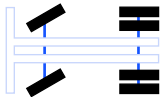

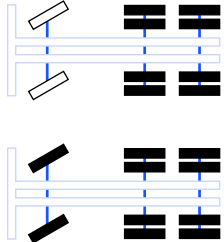

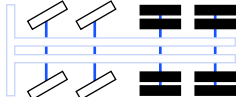

IVECO T-WAY		Rigid		
		4 x 4	6 x 4 and 6 x 6	8 x 4 (2+2)
