## STYLE

Customise your vehicle with **precious details** that highlight its character and style. **Easy to apply.**

### CAB SIDE DECAL

#### STRALIS MY2007

Made from weather resistant satin-finish adhesive material, emphasises the streamlined form and character of the Stralis.

Applicable to Stralis AS, AT, long cab.

PN 500025723

### TEXT DECAL FOR SIDE FAIRING

#### STRALIS MY2007

Satin-finish Iveco logo, to be applied on the side fairings to highlight the Iveco brand. Made from weather-resistant adhesive material. Applicable to Stralis tractor with opt. 4600 or opt. 8118.

PN 500025724

### MIRROR CHROME TRIM KIT

#### STRALIS MY2007, EUROCARGO, EUROCARGO MY2008, TRAKKER

Extremely light plastic chrome coating to protect and highlight the mirrors of your vehicle.

Kit includes 4 items.

2 large and 2 small covers.

PN 500025719

NEW

### ITALIAN FLAG MIRROR COVER

#### STRALIS MY2007, EUROCARGO, EUROCARGO MY2008, TRAKKER

Extremely Light plastic Italian flag coating to protect and highlight your vehicle's mirrors.

Kit includes 2 items.

2 large covers.

PN 500044150

### STEP TRIM

#### STRALIS MY2007

Stainless steel plating with laser-cut Stralis logo.

Easy to fit with 4 self-tapping screws.

Thickness: 1.5 mm

Dimensions: 100x400 mm

PN 500025722

## DECORSTRIPES

Aggressive and stylish, **ideal for highlighting the character of your vehicle.** Guaranteed weatherproof and UV resistant, can cope with all weather conditions. **Different patterns available.**

MOBILE ROOF SPOILER • PN 500025743

## EUROCARGO AERODYNAMIC KIT

The innovative feature of this spoiler is the type of material, normally used in shipbuilding and known for its reliability and excellent finish.

The product, moulded in a single piece, is perfectly smooth both outside and in, with the paint incorporated into the resin; in the event of scratches simply sand and polish with an abrasive paste. The spoiler is height-adjustable and all adjustments are easy to do. The system is also quick and easy to fit, with assembly taking just 20-30 minutes from start to finish.

**Setting height:** min 580 mm, max 880 mm

**Width:** with side fenders fitted covers bodies of over 2200 mm

**Fuel saving:** about 200 m every Km

The complete kit is made up as follows: roof spoiler, side spoilers with fittings for the roof spoiler; fixing brackets, mounts and threaded fasteners for fitting the spoiler to the vehicle roof, gasket and roof/spoiler rubber holder-spacers.

### EUROCARGO low roof, short cab

Aerodynamic kit • PN 2993998

Left and right side skirts • PN 2994517

Streamliner kit (spoiler + side skirts) Mod. Cheyenne, short cab • PN 1904476

## DAILY ADJUSTABLE SPOILER

A ruggedly designed spoiler made of innovative material, mounted to the roof of the vehicle; an excellent way of reducing fuel consumption without detracting from style and aerodynamics. Easy to fit.

The spoiler has the following characteristics:

- Covered by registered European patent.
- Complete with spoiler; brackets, mounts, threaded fasteners and gaskets.
- Reliable material, excellent finish.
- Single piece, smoothcoating with highly weather-resistant.
- Attractive design.
- Easily height adjustable.
- Quick and easy to fit (10-15 min).
- Roof lights can be replaced without removing the spoiler.
- Approx. 20% fuel saving.

## SIDE FAIRINGS

Iveco Shop side fairings are a combination of design and functionality. **They improve the look of your vehicle and reduce consumption.** The use of a stainless steel framework brings lightness, flexibility and strength. The fibreglass moulding is produced with an injection technique that gives the mould a uniform thickness with great flexibility and strength.

The hinged opening mechanism on the left reduces the working space occupied by the fairing, with easy opening and closing and no need to remove parts or accessories for access.  
Wheelbase 3650/3800, with customised fittings.

## AUXILIARY LIGHTS

**Devised for your safety. Designed to suit your style.**

Guaranteeing visibility in all conditions. Accentuating the design of your vehicle. Iveco auxiliary lights are designed to offer you all this and more, meeting the need for **efficiency, quality and durability**.

### **XENON** LONG-RANGE AUXILIARY DRIVING LAMP

Xenon driving lamp kit developed specially for the Stralis (except for the MY2007). Improves comfort in night driving, notably reducing fatigue thanks to a lighting effect resembling daylight. Built-in version for bumper mounting in place of fog lights.

Advantages:

- State-of-the-art design, with high-tech finishes and smooth glass technology.
- Excellent night visibility with blue tinted light, accentuating the line of the vehicle.
- Easy to install on all Stralis vehicles.

**PN 2994616**

### **NAVIGATOR** AUXILIARY WORK LIGHT

Bosch "Navigator" stainless steel white lens work light, supplied with 24V 70W HI and 24V 4W bulb.

**Weight:** 1.965kg

**Measures:** 226x123mm

With TÜV work lamp certificate.  
White light.

**PN 2994522**

## ADDITIONAL HEADLIGHTS

Britax high-performance auxiliary lights, designed to give outstanding night visibility. White-light and blue-light versions.

Advantages:

- Intensive illumination for highly improved night vision.
- Tested to ensure long life.
- Easy to install with universal ball joint.

6.75" 12V clear lens\* • **PN 92954292**  
6.75" 12V blue lens\* • **PN 92954294**

## HORNS

**An unmistakable sound.** These powerful electropneumatic horns are the best way of making yourself heard when needed.

### DAILY

Two-tone black horn, very powerful, complete with 12 Volt electropneumatic compressor and Iveco logo.

PN 2994779

### STRALIS, EUROCARGO, TRAKKER

Two-tone black horn, very powerful, complete with 24 Volt electropneumatic compressor and Iveco logo.

PN 2994780

Very powerful two-tone black compressed air horn without solenoid valve, with Iveco logo.

PN 2994777

### DAILY

Two-tone chrome horn, very powerful, complete with 12V electropneumatic compressor and Iveco logo.

PN 2994781

### STRALIS, EUROCARGO, TRAKKER

Two-tone chrome horn, very powerful, complete with 24V electropneumatic compressor and Iveco logo.

PN 2994782

Very powerful two-tone chrome compressed air horn without solenoid valve, with Iveco logo.

PN 2994778

### DAILY

Pneumatic horn complete with spoiler and 12V electropneumatic compressor.

For use on vehicles without compressed air.

PN 2993749

### EUROCARGO, STRALIS, TRAKKER

Pneumatic horn complete with spoiler and 24V electropneumatic compressor.

For use on vehicles without compressed air.

PN 2993750

### EUROCARGO, STRALIS, TRAKKER

Compressed air horn for articulated trucks, very powerful sound with high and low-tone horns. Length: 55-60 cm. Applicable to any truck with compressed air. Works with pressure 4-20 atm. Complete with 24V solenoid valve and quick-fit installation. Constructed using high-quality metals including: stainless steel for the horn, zama for the base and phosphor bronze for the diaphragm to guarantee an ample safety margin, long life and resistance to corrosion. 108 dB.

PN 500025950

### EUROCARGO, STRALIS, TRAKKER

Spoiler for horns • PN 93162381

### EUROCARGO, STRALIS, TRAKKER

Compressed air horn with built-in solenoid valve. Easy to install on all heavy vehicles, one of the leading horns on the market.

L:19 cm, H:19 cm, P:11 cm.

Weight 1000 g.

Voltage: 24 V.

Operating pressure: 6-12 atm.

Audibility: 200-300 m. 108 dB.

PN 500025951

### STRALIS

Stainless steel compressed air horn with high and low-tone horns. Length 50 cm - 60 cm with mount. Complete with spoiler, 24V solenoid valve, installation kit and mount gasket. Highly resistant to weather-related corrosion and oxidation. Aerodynamic, tough, with high quality sound. Audibility: 200-300 m. 108 dB.

PN 500025949

Supplementary WATER heaters		
Daily	Hydronic D5W SC	PN 2993704
Eurocargo, Stralis	Hydronic D5W SC	PN 2994225

## EBERSPÄCHER - HYDRONIC SUPPLEMENTARY WATER HEATERS

Advantage of water heaters: installed in vehicle cooling circuit to provide simultaneous cab and engine preheating. Heat energy is transferred to the heat exchanger in the vehicle heater unit and warm air is conveyed into the cab via the existing ducts. Maximum comfort with either a digital timer or conventional/telephone remote control for on/off programming.

	small	large
Heat (W)	2400	5000
Air flow (Kg/h)	0	0
Fuel consumption (l/h)	0.27	0.62
Weight (kg)	2.29	
Dimensions (mm)	250x90x160	
Electrical Input (W)	23	50

## SUPPLEMENTARY AIR HEATERS

Air heaters work independently of both the vehicle engine and air conditioning system.

The heaters are controlled by their internal electronic control units (see drawing):

- when the engine starts, the combustion chamber is pre-ventilated, the spark plug is preheated and the pump introduces diesel;
- the spark plug ignites the diesel/air mixture to produce a flame;
- air is conveyed from the interior or exterior of the vehicle;
- by means of the heat exchanger, the heat of the exhaust gases is transferred to the air which is then introduced into the passenger compartment.

When switched on, they take in cold air from outside, heat it and convey it to the vehicle interior.

They can be installed either under the seats or inside the load area.

Both kits are equipped with electronic timers to ensure maximum comfort.

## AIR CONDITIONERS

The use of air conditioners is no longer limited to the summer months, but is also useful in the winter for rapid vehicle windscreen demisting to guarantee perfect visibility. Costive Shop air conditioner line components are type-approved according to original equipment specifications, guaranteeing the same performance levels.

## STATIONARY VEHICLE AIR CONDITIONERS

Applicability	Description	Part Number
Eurocargo My2008 - Stralis My2007 - Trakker	Stationary vehicle air conditioner Fresco 3000 - Top *	PN 500025706
Eurocargo My2008 - Stralis My2007 - Trakker	Stationary vehicle air conditioner Fresco 3000 - Retro **	PN 500025707

### Eurocargo MY2008, Stralis MY2007, Trakker

The new Fresco 3000 air conditioner is Iveco's answer to achieving maximum thermal comfort in the cab bunk zone of industrial vehicles during night-time and daytime stops, with top-of-the-range real cooling power (950 W-3245 BTU/h). It works silently and cleanly with the engine off, lowering the temperature and reducing humidity in the way that only true air conditioners can, leaving the roof hatch free. The weight is now reduced, thanks to the use of a single Danfoss BD350GH compressor, and the two available versions mean that the Fresco 3000 can be installed in any kind of cab without the use of specific installation kits. Requires a battery of at least 180Ah.

Technical characteristics:

- Uses Refrimaster tubing.
- Max. cooling power 950W (3245 btu/h).
- Max. electrical input 14.5 A (7.5 A standard function).
- Two different configurations with choice of top or back condenser.
- Operates at 24V dc with engine off.
- Eco-friendly R134 (CFC free) gas.
- Remote control and digital control panel with programming timer.
- 6 ventilation speeds.
- Battery saving device automatic switching off at low voltage.

Advantages:

- Reduced overall weight.
- Greater range of application thanks to the choice of two different types of condenser, covering all kinds of cabs.
- Simplified fitting procedure.
- Precision heat control and a healthier environment, with lower temperatures and reduced humidity.
- Low noise and no combustible exhaust gases emitted into the surrounding environment when stationary.
- No interference with roof hatch, therefore no need to buy adaptation kit.
- Air distribution directly in bunk zone, giving excellent air conditioning and comfort during rests, avoiding the loss of efficiency that occurs with the evaporator positioned further away.

\* Installable above cab. Not compatible with Stralis AS fitted with aerodynamic kit.

\*\* Installable behind cab.

## LOAD AREA LININGS

The load area linings are designed **to protect the floor and walls of the vehicle in normal loading and unloading operations**. Kit contains fitting accessories.

Linings for vans with medium/high roof are available in a variety of materials. Refer to the table to find the right kit. The untreated MDF floor kit, in non-skid phenolic multi-layer, has cambered and predrilled corner sections made of oxidised aluminium alloy with smooth silver finish, to protect the edges of the lining at the rear and side doorways.

8 mm MDF

4 mm MDF

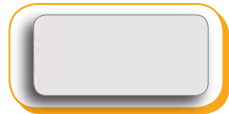

6 mm Okoumé plywood

## ANTI-THEFT SYSTEMS

Giving you **peace of mind and maximum protection** against theft when you're away from your vehicle. **Easy to fit.**

### DIABLOCK FOR DAILY

The Diablock is an automatic security lock for light range load compartments. It was devised in response to the incessant need to protect not only the vehicle, but its contents.

The main purposes of the Diablock are:

- To safeguard the contents of the load compartment, transforming it into an armoured fortress.
- To reduce uncontrollable and damaging loss of goods in transit, until now protected by an ordinary, vulnerable lock.
- To eliminate the need for awkward and quite ineffective external padlocks.

The device, which is invisible from the outside, is electronically activated. Simply close the door and, after 5 seconds, the Diablock mechanism will lock it shut. To open, either press the button on the Diablock radio remote control or, with central locking systems, you can use your vehicle's standard remote control.

The kit contains the control unit, a lock and a remote control.

The control unit can handle up to 3 additional locks simultaneously, for locking the rear doors and up to two side doors. The Diablock is able to interface with a vehicle central locking system, making it possible to operate all the door locks from a single remote control. The kit does not include the mounting bracket for right-hand drive vehicles (order separately).

Complete Diablock for rear locking • **PN 2994697**

Mounting bracket for right-hand drive vehicles • **PN 500025078**

Optional bolt • **PN 2994944**

### LEOBLOCK FOR DAILY

Interfaces with all Diablock configurations to further enhance vehicle security. The kit is supplied with a self-powered siren, shock sensor, ultrasonic volumetric sensor and immobiliser.

**PN 2994945**

## IMMOBILISER

The immobiliser consists of a remote-controlled engine start-up relay (30A), identical to the vehicle's original relay. It is thus impossible to detect.

### 07K12 ELECTRONIC IMMOBILISER FOR DAILY

Works automatically when the transponder is plugged into the cigarette lighter socket.

The lock engages instantly and automatically when the engine is switched off. Once the anti-theft system is armed, it prevents the engine from starting. No need for additional cabling or modifications to the vehicle's electrical system. Quick and easy to install.

**PN 2994693**

### 07K13 ELECTRONIC IMMOBILISER FOR DAILY

Arms automatically 30 sec. after the engine is switched off and disarms automatically by means of the radio transponder. Can control multiple remote-controlled relays. Self-learning of new transponders in addition to the 2 supplied transponders. Emergency disarming by PIN code. Anti-Scan. Transponder reading range approx. 20 cm. Can manage up to 5 transponders.

**PN 2994694**

### 06Q12 ELECTRONIC IMMOBILISER FOR DAILY

Double protection for your Daily: electronic and mechanical. The electronic part disables the start-up circuit, whereas the mechanical part blocks the clutch hydraulic circuit to interrupt the vehicle drivetrain system, thus stopping the power from being transmitted to the wheels. Certified to Italian CEI 79/17 Level II standard, corresponding to ANIA insurance requirements: this immobiliser is essential if the transported goods need to be insured.

**PN 2994167**

### 06Q24 ELECTRONIC AND MECHANICAL IMMOBILISER FOR STRALIS, EUROCARGO AND TRAKKER

Double protection for your vehicle: electronic and mechanical. The electronic part disables the start-up circuit, whereas the mechanical part blocks the clutch hydraulic circuit to interrupt the vehicle drivetrain system, thus stopping the power from being transmitted to the wheels.

Certified to Italian CEI 79/17 Level II standard, corresponding to ANIA insurance requirements: this immobiliser is essential if the transported goods need to be insured.

Manual gearbox • **PN 2994171**

Automatic gearbox • **PN 2994166**

## PROFESSIONAL ALARM FOR DAILY S2000

Professional alarm for vehicle protection, featuring 2 anti-scan radio controls, rolling code for centralised door opening/closing, engine hood protection, door protection, flashing turn indicator lights when switching on/off, eco-friendly internal battery that operates the alarm if the main battery cable is cut, high-power siren, LED alarm signalling with event memory, ultrasonic cab interior protection, option of activating horn together with alarm and adding optional modules such as power window control and tilt sensor. Supplied with Emergency Key and has a dedicated output for connection to a MetaSystem GSM and/or satellite module.

**PN 93162751**

M160 movement sensor • **PN 2994163**

Power window module M8 • **PN 2994164**

## SELF-POWERED ALARM

Compact self-powered alarm, featuring 2 Random Rolling Code radio controls, volumetric protection, peripheral protection, blinker and control. Central locking, Thatcham approved.

24V power supply • **PN 93162756**

12V power supply • **PN 93162757**

## TECNOSAT SATELLITE TRACKING SYSTEM FOR DAILY, STRALIS, EUROCARGO AND TRAKKER

Tecnosat is a satellite tracking system for commercial and industrial vehicles. In addition to the usual functions of a tracking system, the Tecnosat can automatically transmit both crash alarms and SOS alarms by means of a push-button connected to the corresponding input. The extreme flexibility of the device means that it can be used for logistics applications, security applications or both. It can be managed by single users (via mobile phone), companies, generic applications (GIS, management software, logistics software platforms and web-based portals, etc.) or specialist applications (via Websat software or Websat Development Kit tools), by selecting the corresponding communication mode (GPRS/SMS/GSM data channel).

Functionality: real-time tracking, programmed tracking at planned intervals, continuous tracking activation, route recording, alarms (crash alarm: when the crash alarm is triggered by the electronic crash sensor, the Tecnosat sends the alarm signal either to the control centre or private GSM telephone numbers. SOS request alarm: when the push-button connected to the input is pressed, the Tecnosat sends a request for emergency assistance to either the control centre or private GSM telephone numbers).

**PN 2994953**

## ANTI-SYPHON DEVICES

Fuel theft prevention systems.

Aluminium device for preventing diesel fuel theft. Tested for non-interference with normal filling at up to 120 l/minute. Fitted with a special valve to prevent fuel suction, even when the tank is full, and to stop excess fuel spilling out.

Applicability	Application	Description	Diameter	Part Number
Stralis	Tractors	Standard	80 mm	PN 92954010
Stralis with aluminium fuel tank	Rigid trucks/tractors with aluminium fuel tank	Standard	80 mm	PN 92954011

	92954017 / 92954013	Anti-theft devices	60 mm	PN 92954035

## ANTI-THEFT NUTS FOR STRALIS MY2007 AND MASSIF

Anti-theft nuts - 3/2" thread M22x1.5 alkaline zinc plated. Handy case containing 4 nuts and a tightening key.

**STRALIS, TRAKKER • PN 500025710**

**DAILY • PN 500025712**

**MASSIF • PN 500025906**

**EUROCARGO • PN 500025711**

## ACOUSTIC REVERSE SIGNALLERS

Switch on automatically, emitting an audible signal whenever reverse gear is engaged.

**Guarantee improved reliability,** greater acoustic precision, quicker and more accurate self-adjustment to ambient noise levels, easier installation and longer durability.

Available in versions with conventional acoustic signal and low noise pollutant signal.

### BBS-TEK SIGNALLER FOR DAILY, STRALIS, EUROCARGO AND TRAKKER

Although reversing alarms are vitally important for safety, they can also be annoying for people working nearby and residents in the areas where they are used.

The bbs-tek reversing alarm system emits a special type of sound that resolves this problem. Its internationally patented broadband signal (white sound) emits a "shh...ssh...ssh" multi-frequency sound, unlike the narrowband sound of normal alarms.

Available for all types of vehicle, BBS-TEK alarms have the following advantages over conventional alarms:

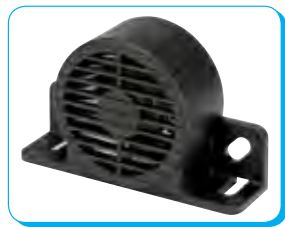

- The sound can be heard only behind the reversing vehicle, thus avoiding complaints about noise pollution.
- Instant location of the position of the reversing vehicle for greater safety: with conventional alarms, with conventional alarms, people have difficulty identifying the actual position of the vehicle because the sound dissipates in all directions. This is not the case with bbs-tek.
- Automatic volume adjustment: especially useful for vehicles operating in different environmental conditions, or both night and day.

bbs-87 reverse signaller with 87dB alarm for Daily and Eurocargo • **PN 92940113**

bbs-92 reverse signaller with 92dB alarm for Stralis, Eurocargo (tractor) and Trakker • **PN 92928617**

## FIXED VOLUME SIGNALLERS FOR DAILY, STRALIS, EUROCARGO AND TRAKKER

Ideal for trucks, buses, coaches, mobile plant equipment, industrial and light vehicles, in conformance with the SAE J994 environmental standard and protected by a tough, durable structure, guaranteed waterproof (IP68). Solid frame, spark-free electronics, epoxy sealed for protection against mud, water and vibration, resistant to steam cleaning and compressed air jets.

ba-160 reverse signaller with 97dB alarm for Stralis, Eurocargo and Trakker.

**PN 2994519**

ba-42 (NS) reverse signaller with 90dB alarm and 78db noise reduction for Stralis, Eurocargo and Trakker.

**PN 2994581**

ba-57 reverse signaller with 90dB alarm. Suitable for most light vehicles and small forklift trucks. Includes an optional night-silent feature which automatically cuts out the bleeper when the vehicle lights are on. Compatible with Daily and Eurocargo.

**PN 92928614**

ba-13 reverse signaller with 90dB alarm for Stralis, Eurocargo and Trakker.

**PN 92928615**

Acoustic reverse signaller with fire-retardant, acid-resistant and waterproof speaker. The signaller is completely airtight and has a water-resistant resin-coated circuit. The item is easy to install and switches on automatically whenever reverse gear is engaged. Its ideal position is on the vehicle tailgate bar. Compatible with Stralis, Eurocargo and Trakker.

**PN 2994260**

## REVERSING ALARM DISARMING SYSTEM

Disarming device for reversing alarms, used in countries with strict noise regulations.

One-touch timed relay mounted on dashboard. Allows the driver to disarm the BACKALARM device when reversing on out-of-town roads between 11.30 pm and 7.30 am. The system automatically resets after a 3-4 minute delay.

**PN 92939994**

## REVERSING VIDEO KITS

Camera systems that ensure safe reversing by providing **clear all-round visibility** to alert the driver of potential dangers. The ideal solution when you are unable to see the side or rear of your vehicle. Black/white and colour versions available in both professional and basic configurations.

### BE-856 PROFESSIONAL VIDEO KIT

- 5.6" LCD monitor with auto dimmer function, anti-reflective screen. Requires module for insertion of 3 cameras.
- BE-856 professional colour camera.
- 20m cable.

PN 2993760

### BE-870-000 PROFESSIONAL VIDEO KIT

- BE-870EM 7" professional LCD colour monitor.
- BE-800C professional colour camera, 6 infrared LEDs, shock and vibration resistant, waterproof, integral microphone, operating temperature range -20 °C - +70 °C
- 20m cable.

PN 92954425

### VBV-750-000 BASIC VIDEO KIT

- VBV-750AM 5" LCD colour monitor.
- Control module for 2 VBV-700CM camera inputs.
- VBV-700C camera, shock and vibration resistant, waterproof, integral microphone, -20 °C - +70 °C operating temperature.
- 20m cable.

Touch screen video kit • PN 500043899

### BE-300C PROFESSIONAL CAMERA

- 1/3" Sony CCD high-resolution.
- Autofocus.
- Infrared LEDs giving high definition vision in low light conditions.
- Waterproof (IP68).
- 125° wide view angle.
- A complete series for mounting on the front, rear and LH/RH sides of the vehicle.

BE-300C professional LH side view camera • **PN 2994911**

BE-301C professional RH side view camera • **PN 2994912**

BE-302C BE-301C professional rear view camera • **PN 500025922**

BE-303C BE-301C professional front view camera • **PN 500025923**

### BE-455M PROFESSIONAL MONOCHROME MONITOR

- 5.5" monochrome monitor.
- Anti-reflective screen.
- 2 inputs for black/white cameras.

**PN 92953855**

BE-455 20-metre cable.

**PN 92953868**

## PARKING SENSORS

Reversing and parking in confined spaces can be risky. With limited rear visibility, ever-smaller parking spaces and spiralling repair costs it makes sense to fit your vehicle with a parking assistance sensor.

**Reduce risks and potential damage and repair costs. Switch on automatically whenever reverse gear is engaged.** Audio and visual systems available.

### DAILY

The system uses ultrasonic sensors which detect any obstacle located behind the vehicle (other vehicles, pallets, pedestrians, etc.). It alerts the driver to their proximity by emitting an intermittent signal which becomes an unbroken signal when the vehicle is less than 30cm from the obstacle.

The LCD colour display instantly informs the driver of the obstacle's distance and position (right/left). The compact size of the sensors means that they can be incorporated discreetly into the vehicle bumper without altering the lines of the vehicle. The kit, designed for all types of plastic bumper, contains 4 sensors and can also be used on vehicles with tow hooks. The pack also contains the special drill bit required for drilling the bumper.

PN 2994813

Single replacement sensor • PN 2994958

Sensor for metal bumpers • PN 500043624

### DAILY S2000

4-capsule reversing sensor for in-cab installation with optical-acoustic signalling (LED + buzzer) and indicator extension. New water-resistant sensors with connector for easy installation. Complete with brackets for adaptation to vehicle.

PN 93162750

### STRALIS, EUROCARGO, TRAKKER

The sensor reduces risks and potential damage and repair costs. Allows the driver to manoeuvre safely in difficult reversing operations. Switches on automatically whenever reverse gear is engaged.

PN 92953848

## REVOLVING BEACONS

**It's difficult not to be noticed with revolving beacons.** Recommended for emergency situations or special manoeuvres. The orange beacon lens gives high visibility in all directions.

Available in magnetic version or anti-vibration, watertight rubber-based version.

**Gives greater safety in critical situations.**

The "Revolux" rotary lamp consists of a magnetic base (max speed 80 Km/h) and a particularly tough polycarbonate cover. The internal metallic reflector is specially designed to guarantee excellent light diffusion.

The patented drive mechanism, on ball bearings, is low-noise and low-friction, ensuring constant operation over time.

Comes complete with bulb.

The patented attachment system and phosphor bronze holder contacts ensure quick bulb changes and a reliable electrical connection.

Lamp with 24V supply voltage • PN 2994819

Lamp with 12V supply voltage • PN 500025082

- Base made of glass-fibre reinforced polypropylene.
- Dome with screw fastening.
- Worm gear drive.
- Rotation on sintered bush.
- Metallised steel reflector with balance counterweight and step device for manual rotation.
- Radio interference filter in accordance with DIR.95/54/CE.

12V supply voltage • PN 2994429

24V supply voltage • PN 2994430

## MODULAR LIGHT BAR FOR DAILY

- Rotating light module with innovative reflector design for extremely high light intensity.
- Low profile (13 cm h).
- Fully protected motor assembly.
- Worm gear drive.
- Rotation on sintered bush.
- Metallised steel reflector with step device for manual rotation.
- Radio interference filter in accordance with DIR.95/54/CE.
- One-piece base and body structure, cover fixed with 4 spring clips. The entire structure is made of unbreakable polycarbonate.
- Opaline light panel suitable for the application of any kind of logo or text, illuminated by 2 x 21W 12V or 24V bulbs.

PN 2994431

## EMERGENCY LAMPS

Emergency lamps are useful things to have on hand at all times.

**Lighting is an essential requirement when the unexpected occurs.**

Iveco Shop rechargeable emergency lamps are eco-friendly, being powered not by batteries but by a powerful supplied built-in dynamo generator.

As well as having an ergonomic lever for switching on the built-in dynamo generator, the lamps can be recharged from any of the available accessories on the vehicle, such as the 12V cigarette lighter socket or the 220V mains supply AC/DC adapter.

The 4.8V output can also be used as an emergency power supply for your mobile phone (adapters for Nokia, Sony-Ericsson, Motorola, Siemens and Samsung included).

## RIGEL RECHARGEABLE LAMP

Rigel is top of the range thanks to its versatility and power: 5 x 10mm ultra-bright LEDs on a platform with extremely innovative features. 180° swivel head, magnetic base, luminous grip and handy accumulator charge/full indicator. The selector can be used to choose between 3 or 5-LED lighting.

Characteristics:

- Built-in NiMH accumulator, rechargeable from external power sources.
- 5 x 10mm ultra-bright LEDs, over 50,000 hours operating life.
- Swivel head with 180° DIRECTIONAL LIGHT.
- 3 or 5-LED lighting selection.
- Luminous handgrip, visible in the dark.
- Magnetic base for easy positioning.

PN 2994990

## GIPSY2 RECHARGEABLE LAMP

5 white LEDs for continuous lighting. Supplied with standby light, making it easy to find in the dark.

Characteristics:

- Built-in 3-phase generator.
- 5 x 5 mm ultra-bright LEDs, over 50,000 hours operating life.
- Light assembly with lens.

PN 2994989

## GUARD-LITE LAMP

6V rechargeable halogen lamp. Ø 120, 55W - 550,000 candle power. 6V 4 Ah battery. Adjustable handle. Complete with cigarette lighter plug and transformer for recharging.

PN 500025841

## BULB KIT

A set of spare bulbs and fuses for continuing your journey safely.

PN 93162599

## IVECO SHOP LIGHTS

New 12V bulbs for your Daily. **More light, more safety.**

Discover the new bulbs. For almost 100 years the OSRAM brand has been synonymous with excellent lighting all over the world.

### EXTRA

Exceptional performance: EXTRA lamps have two key advantages over standard halogen lamps the special technology used in their construction means that they put up to 50% more light on the road, depending on the type of headlight, especially in the crucial zone 50 to 75 metres in front of the vehicle. In addition, the light beam is up to 20 metres longer.

This means that road signs, markings, obstacles and other dangers can be seen sooner and more clearly.

As regards design, this impressive improvement in performance is matched by great innovations in style.

EXTRA H4 and H7 lamps are silver-capped to blend in with the background reflector. And unlike the majority of low-cost lamps, they maintain this effect throughout their lives. EXTRA lamps are

therefore ideal for modern clear-glass headlight clusters; the perfect answer for all drivers who value not only the improved safety of their vehicle, but also its looks. **Supplied in 2-bulb sets.**

### DAILY

EXTRA - H1 - 12V • PN 500025698

EXTRA - H4 - 12V • PN 500025800

EXTRA - H7 - 12V • PN 500025803

### BLUE

With a colour temperature of 4000 K, the performance of BLUE lamps is unmatched. High-contrast bluish white light that resembles natural daylight and is therefore easier on the eyes than the light from standard lamps. The effect is virtually the same as that of Xenon lamps.

Safety too is an important factor, as vehicles fitted with BLUE lamps are more visible to other road users. Compared to standard headlight lamps, they give the subjective impression of being brighter and generate up to 20% more light on the road and laterally. **Supplied in 2-bulb sets.**

### DAILY

BLUE - H1 - 12V • PN 500025699

BLUE - H4 - 12V • PN 500025801

BLUE - H7 - 12V • PN 500025804

### STRONG

Surveys conducted in Europe have revealed that 50% of all road accidents (and 80% of accidents at crossroads or junctions) happen because the driver does not see the other vehicle in time or does not see it at all. Reasons include glare from the headlights of oncoming vehicles and high-contrast shadows of trees when the sun is low in the sky.

If drivers were to drive with dipped headlights in the daytime as well, the number of accidents would fall drastically as it would be easier to see other vehicles, even in poor visibility conditions. This fact is confirmed by a major survey conducted by the Roads and Transport Authority of Lower Saxony. The introduction of compulsory daytime running lights can prevent around 35% of all collisions and 25% of fatal accidents.

**Supplied in 2-bulb sets.**

STRONG - H7 - 12V • PN 500025805

### WHITE

The new, easy-to-install WHITE lamps, approved throughout Europe, can be used as replacements for conventional indicator lights.

Choose WHITE to add design and technology to the lighting capacity of a standard turn indicator. Also, WHITE lamps last twice as long as conventional turn indicator lights.

The lamps, which are amber-coloured when flashing and neutral when switched off, are ideal for clear-glass headlights and add style and efficiency to your vehicle. **Supplied in 2-bulb sets.**

### DAILY

## RETRO-REFLECTIVE STRIPS

The use of microprismatic retro-reflective film for vehicle contour marking has led to a significant reduction in road accidents, according to tests conducted in the United States. These highly refractive tape strips, available in white, yellow and red, can make your vehicle identifiable at distances of 300-400 metres. The PVC backing means that they can also be applied to tarpaulin-covered vehicles. Roll size: 50 mm x 50 metres.

Pair of panels for tractor with yellow background and two oblique fluorescent red stripes.  
PN 2994173

Pair of panels for trailer with yellow background and fluorescent red frame.  
PN 2994174

## EMERGENCY KIT

Travel safely, following the rules of the highway code. Iveco Shop has devised a set of extremely useful accessories for your vehicle: warning triangle, torch, reflective vest and first aid kit.

Kit includes:  
• R27 approved warning triangle.  
• High-visibility fluorescent jacket.  
• DIN13164 first aid kit (sealed).  
• Aluminium micro-torch.  
In a handy pack for easy access.

## EMERGENCY JUMP STARTERS

Professional equipment with no compromise on quality. For multiple starts in difficult conditions, even with completely flat batteries.

### POWERBOX JUMP STARTER

The POWERBOX is characterised by a system of selectors to keep the clamps voltage-free during transport and connection. This range is particularly suited to military (armoured cars, tracked vehicles in general) and aeronautical use (commercial aviation and helicopter turbines), as well as to heavy-duty haulage applications (urban transport, road rescue, mining and construction sites, industrial transport, etc.). The Optima and CTEK battery chargers give precision, rapid charging even after extremely intense use. The system of special fuses helps protect the units against improper use. Voltage 24V.

PN 500025747

The unit has original Radaflex cables and solid brass clamps with offset opening, and the powerful AGM batteries are protected against accidental short-circuit or prolonged use by a special system of fuses. The battery charger is electronic and automatic. Voltage 12V.

PN 500025745

## JUMP LEADS

Practical and essential. Useful for coping with the unexpected. Supplied with carrying case.

### STRALIS, EUROCARGO, TRAKKER

## TYRE REPAIR KITS

Innovative puncture repair kits (punctures up to 8 mm) that don't damage the tyre. Repairs take just 5 minutes, without having to use jacks or spare wheels, with the guarantee of an immediate, easy and clean repair job. The kit has many advantages over spare wheels, including: lower cost, less space occupied and less weight to carry. After use, **the product is easily washed away with water.**

### STRALIS, EUROCARGO, TRAKKER

The AirBox Maxi is a puncture repair kit (holes up to 8 mm). The product is injected into the tyre using the on-board compressor. After the puncture repair, vehicle speed is limited to 80km/h by law. Guaranteed for 8 years. The kit contains:

- 3,000 ml bottle (bottles can be ordered singly as spare part PN 2994766).
- Unscrew.
- Product transfer tube.
- Elbow connection for injecting the chemical product into a twinned outer wheel.

### STRALIS, TRAKKER

PN 2994764

### EUROCARGO

PN 500025824

### DAILY

This tyre repair kit is recommended for commercial/camper vehicles with a GVW of up to 3,500 kg. The kit contains:

- 500 ml bottle (bottles can be ordered singly as spare part PN 2994765).
- EC certified 12V compressor.
- 6 m battery connection cable.
- Air tube with quick-fit coupling.
- Unscrew.
- Product transfer tube.
- Augelli compressor accessories.
- Pair of disposable gloves.

PN 500043542

## DIAMOND-PATTERN SNOW CHAINS

Be prepared to face the winter in complete safety.

### DAILY

The main features of König

“T2 - No problem” snow chains are:

- Diamond pattern chain with cross chains in MnNi special alloy steel (UNI EN 10020).
- Excellent grip on ice and snow.
- Steel tension spring to hold the chain tight against the tyre when driving.

Pack contains 1 pair of chains.

## LOAD STRAPS

Load straps are an essential requirement for safe travel with your load properly positioned and harnessed. Available in a range of different sizes and load limits.

Retaining belt conforms to European standards for Italy, Spain, Portugal and non-European countries.

In accordance with standard EN12195-2.

Characteristics:

- Red straps in 100% polyester fabric.
- Width 50 mm.
- Length 9 m.
- Carrying bag.
- Load capacity 1650 daN.
- Load limit 5000 daN.
- Min BF 3300 daN.

**PN 2994480**

Retaining belt conforms to European standards for France.

Characteristics:

- Yellow straps in 100% polyester fabric.
- Width 25 mm.
- Length 5 m.
- Carrying bag.
- Load capacity 200 daN.
- Load limit 600 daN.
- Min BF 400 daN.

**PN 93162398**

Retaining straps for load compartment, 1x4. m.

**PN 93162399**

## AUTOMATIC GREASING SYSTEM

The kit consists of a pump that can be fitted with an interchangeable grease cartridge. The cartridge system is the most advanced solution available in that it prevents impurities or foreign bodies from entering the tank, something that can happen with normal filling.

The pump and distributors are made from anodized aluminium, while the dispensers and connections are brass.

No setting is required, as the pump is capable of supplying the amount of grease requested to any number of dispensers, from 1 to 80. The grease flow order is enabled by an intelligent electronic control unit that can be programmed to deliver the lubricant at time intervals preset by the user, within a selection range of 20 minutes to 2 hours, depending on vehicle use.

The cartridge capacity is 1.7 kg, giving an autonomy of approx. 35,000 Km.

Installation of the automatic centralised system is easy and requires no equipment.

Pneumatically powered • **PN 1904369**

Electrically powered • **PN 93162835**

## TOW HOOKS AND TOW BARS

The entire range of DAILY S2000 and DAILY MY2006 vehicles can be fitted with Vs. Orlandi tow bars (total product line comprises 3 tow bar kits and 5 stiffeners).  
In addition to tow bars, we offer a comprehensive range of tow hooks to meet your every need.

## WINDSCREEN WIPER BLADES

Driving in adverse conditions is extremely hazardous if visibility is less than perfect. The new Iveco range of windscreen wiper blades has been developed together with leading manufacturers for the pleasure of driving in total safety. Optimum pressure, aerodynamics and compact dimensions to avoid restricting the field of view: these are the features that give Iveco windscreen wiper blades a **smooth and silent action, maximum efficiency in all weather conditions and long-term durability.**

### FLAT BLADE FOR DAILY MY2006

The Flat Blade is a real technological breakthrough; a combination of innovation, style and advanced technology. The wiper blade has none of the 24 or so linkage and joint components normally found in conventional wiper blades. The absence of any kind of superstructure means that the Flat Blade moves very smoothly with outstanding wiping efficiency. It has a metal arm that can adapt to all kinds of curved, slanted and shaped windscreen. Its reduced height and weight give better visibility and excellent airflow management, limiting lift and parasitic noise even at higher speeds. The smoother action and more uniform pressure distribution, unrivalled on today's market, mean that water is cleared more quickly and effectively, with consequent benefits for visibility and safety.  
**PN 2994809**

### HOT SHOT WINDSCREEN WASHER FLUID HEATER

The HotShot is a simple, effective and economical system that heats washer fluid in seconds, enabling the windscreen wiper to remove those stubborn traces of ice, grime, dust and dead insects that impair driver visibility. With the simple pressing of a button you can have a clean and completely ice-free windscreen.

The system has two operating modes:

- Automatic, recommended during the winter for removing ice and snow from the windscreen: The HotShot sprays the heated liquid at preset intervals, guaranteeing a clean windscreen at all times for safe driving.
- Standby, for all driving conditions: The HotShot pre-heats the liquid ready for use on demand.

HotShot is extremely cost effective: not only does it use very little electricity, but it also lengthens the life of the wiper blades and drive motor. The HotShot is simple to install and integrates seamlessly with the standard-fit windscreen washing system. Within just a few hours you can be driving in optimum conditions with maximum comfort and safety. Compatibility: Daily, 12V.  
**PN 2994512**

## COFFEE MAKERS

**There's nothing better than a nice cup of hot coffee.** Especially after tiring hours behind the wheel. With the Iveco Shop range of coffee makers, you can enjoy a coffee whenever you want. The range includes one, five, six or even eight-cup models, designed for mobile use, complete with fixing kit and automatic switching off after boiling.

Coffee maker with connection cable and plug, china cup and fitting kit.  
Coffee ready in 5 minutes. Designed specifically for mobile use.

Technical characteristics:

- Capacity: 150 ml.
- Input voltage: 12 or 24 Volts DC.
- Average input: 12 or 24 Volts DC: 180 or 360 Watts.
- Current input: approx. 15 A.
- Silver/black with Iveco Shop logo.
- Dimensions (LxHxD): 135 x 190 x 110 mm (incl. fixing kit)
- Weight: 0.750 kg.
- Quality characteristics: quick-boiling, switches off automatically when empty, on/off LED.
- Certifications: complies with the German Foodstuff and Consumer Goods Act (LMBG), CE mark.

One-cup coffee maker, 12 volts • **PN 2994543**

One-cup coffee maker, 24 volts • **PN 2994505**

More than 5 cups of freshly-made coffee at a time. It comes with a fixing kit for fitting correctly in the vehicle.

Safety is guaranteed. Switches off automatically.

Technical characteristics:

- Capacity: 5 cups (680 ml).
- Input voltage: 24 Volts DC.
- Average input: 380 Watts.
- Colour: black.
- Dimensions (LxHxD): 210 x 260 x 140 mm (incl. fixing kit).
- Connection cable: 1.0 m.
- Weight: 1.34 kg.
- Quality characteristics: designed for use with standard paper filters, transparent graduated water tank, integrated transport securing device for glass pot, hotplate with thermostat, robust relay technology, overheating protection, on/off LED.
- Certification: E-approved (95/54/EC EMC vehicle guidelines), complies with the German Foodstuff and Consumer Goods Act (LMBG).

**PN 2994498**

Makes up to six 125 ml cups of coffee or tea. Detachable plastic filter support for easy cleaning. Stainless steel coffee pot can be closed and used as a vacuum flask. Coffee machine switches off automatically after boiling.

Technical characteristics:

- approx. 6 cups (750ml).
- Input voltage: 24 Volts DC.
- Average input: 380 Watts (when boiling).
- Colour: silver/grey.
- Dimensions (LxHxD): 270x232x170 mm (without container).
- Weight: 2.6 kg.
- E-approved (95/54/EC EMC vehicle guidelines), complies with the German Foodstuff and Consumer Goods Act (LMBG).

**PN 500025736**

More than 8 cups of freshly-made coffee at a time. It comes with a fixing kit for fitting correctly in the vehicle. Safety is guaranteed. Switches off automatically.

Technical characteristics:

- Capacity: 8 cups (750 ml).
- Input voltage: 24 Volts DC.
- Average input: 12 Volts: 200 W 24 Volts: 360 W.
- Colour: black/silver.
- Dimensions (LxHxD): 285 x 320 x 100 mm.
- Weight: 1.8 kg.
- Quality characteristics: attractive, flat design, removable water tank, water level indicator, robust relay technology, on/off LED, switches off after boiling.
- E-approved (95/54/EC EMC vehicle guidelines), complies with the German Foodstuff and Consumer Goods Act (LMBG).

PN 2994497

Take a break and relax with a warm drink. Tea, or hot soup?

No problem, it'll be ready in a flash with the WAECO PerfectKitchen MCK750. The compact form of the kettle makes it handy and safe. The kettle connects directly to the vehicle battery, with no need for an additional inverter.

Technical characteristics:

- Capacity: approx. 0.75 litres.
- Voltage: 12 or 24 Volts DC.
- Average input: 380 Watts.
- Current consumption: 20 A.
- Colour: black/silver.
- Dimensions (LxHxD): 190 x 205 x 125 mm (incl. fixing kit).
- Weight: 750 g.
- Robust set of relays, switches off automatically on reaching boiling temperature or when there's no water in the kettle, status indicator.
- E-approved (95/54/EC EMC vehicle guidelines), complies with the German Foodstuff and Consumer Goods Act (LMBG).

12 Volt kettle • PN 500025778

24 Volt kettle • PN 2994499

## THERMOELECTRIC REFRIGERATORS

**Economical, lightweight and versatile.** These thermoelectric refrigerators are particularly easy to transport because of their reduced weight. Their remarkable cooling capacity, to as low as 30 °C below room temperature, is more than sufficient for most purposes.

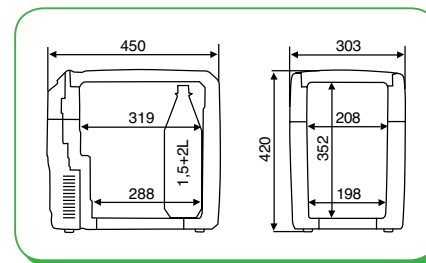

A great advantage of thermoelectric technology is that almost all the refrigerators that use this system, as well being resistant to wear and maintenance-free, are capable not just of cooling but also of heating. Economical and reliable, thermoelectric energy is just right for small and medium-size portable refrigerators. WAECO TropiCool portable refrigerators are characterised by high performance and excellent controls and fittings. TC special electronics with soft-touch control panel and low-power operation. 12/24 Volt connection as standard.

### WAECO TROPICOOOL TC-21FL REFRIGERATOR/WARMER

- Internal volume: approx. 21 litres.
- Input voltage: 12/24 Volts DC and 230 Volts AC.
- Average input: 55 Watts at 12 Volts DC, 60 Watts at 24 Volts DC, 80 Watts at 230 Volts AC.
- Percentage operating time: 35% at room temperature +20 °C.
- Thermal factor : Cooling: from approx. +1° C to +15° C (up to 30 °C below room temperature).
- Heating: from +50° C to +65° C.
- Insulation: polyurethane foam.
- Wear-resistant thermoelectric module (Peltier system).
- Fixed parts of case injection moulded.
- Colour: dark grey/light grey.
- Weight: approx. 6.0 kg.
- Quality characteristics: 7-stage electronic thermostat with LED indicators, memory function, ON/OFF and hot/cold option activated with soft-touch operating panel, intelligent power-save circuit.
- Certification: TÜV/GS, E-approved (95/54/EC EMC vehicle guidelines).

PN 2994956

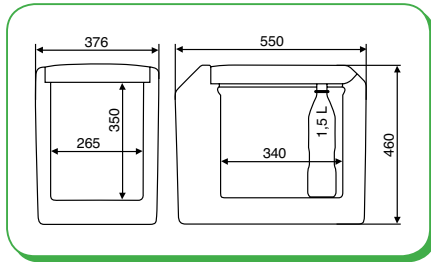

## WAECO TROPICOL TC-35FL REFRIGERATOR/WARMER

- Internal volume: approx. 35 litres.
- Input voltage: 12/24 Volts DC and 230 Volts AC.
- Average input: 60 Watt at 12 Volt, 75 Watt at 24 Volt, 70 Watt at 230 Volt.
- Percentage operating time: 35% at room temperature +20 °C.
- Thermal factor: Cooling: from approx. +1° C to +15° C (up to 30 °C below room temperature); Heating: from +50° C to +65° C.
- Insulation: polyurethane foam, non-CFC.
- Wear-resistant thermoelectric module (Peltier system).
- Fixed parts of case injection moulded.
- Colour: dark grey/light grey.
- Weight: approx. 10,0 kg.
- Certification: TÜV/GS, E-approved (95/54/EC EMC vehicle guidelines).

PN 2994598

## PORTABLE COMPRESSOR REFRIGERATORS

**Unbeatable cooling efficiency.** The fridge/freezer function of compressor refrigerators is ideal in all situations: camper vans, caravans, trucks, cars, workplace or touring. Even food that really needs to be frozen can be kept at temperatures as low as -18° without any problem (CF series).

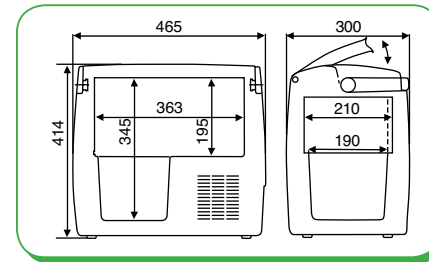

All the compressor refrigerators in the CoolFreeze range have Danfoss BDF compressors. This means: excellent performance, minimum consumption, ultra-silent operation and 12/24 Volt power supply.

## WAECO COOLFREEZE CF-18 PORTABLE COMPRESSOR REFRIGERATOR

- Internal volume: approx. 18 litres.
- Input voltage: 12/24 Volts DC.
- Average input: 35 Watts.
- Percentage operating time: 10% at 20 °C room temperature, 18% at 32 °C room temperature, with unit internal temperature at +5 °C.
- Hourly input: average input x percentage operating time.
- Thermal factor: Settable in the range +10° C to -18° C.
- Insulation: polyurethane foam, non-CFC.
- Hermetic Danfoss BD35F compressor with integrated control electronics, low-voltage protection with 2-position slide switch for either power supply battery or starter battery, electronic fuse/automatic reverse pole protection, dynamically ventilated wire condenser, aluminium rollbond evaporator.
- Material: body: PP; lid: PE.
- Light grey/dark grey body, dark grey lid.
- Weight: approx. 11,5 kg.
- Detachable fold-up lid, carrying handle, vertical space for standing 2-litre bottles.
- 12/24 Volt DC connection cable.
- Certification: TÜV/GS, E-approved (95/54/EC EMC vehicle guidelines).

PN 2994955

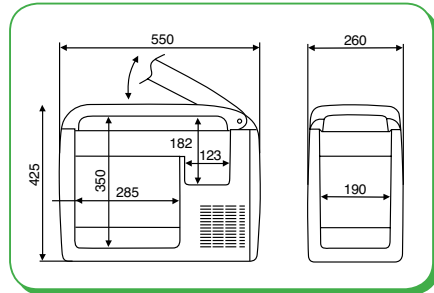

## WAECO COOLFREEZE CF-25 PORTABLE COMPRESSOR REFRIGERATOR

- Portable compressor fridge/freezer with special CF electronics.
- Internal volume: approx. 23 litres (19 litres in directly refrigerated zone, 4 litres in stay-fresh zone)
  - Input voltage: 12/24 Volts DC.
  - Average input: 35 Watts.
  - Percentage operating time: 15 % at 20 °C room temperature, 19% at 32 °C room temperature, with unit internal temperature at +5 °C.
  - Hourly input: average input x percentage operating time.
  - Thermal factor: settable in the range +10 °C to -18 °C.
  - Insulation: polyurethane foam, non-CFC.
  - Hermetic Danfoss BD35F compressor with integrated control electronics, low voltage protection settable to either power supply battery or utilities via CF electronic system, electronic fuse/automatic reverse pole protection, dynamically ventilated wire condenser, aluminium rollbond evaporator.
  - Material: body: PP; lid: PE.
  - Light grey/dark grey body, dark grey lid.
  - Weight: approx. 12.5 kg.
  - Quality characteristics: detachable lid, interior light, vertical space for standing 2-litre bottles, special CF electronics.
  - Accessories: DC connection cable, removable basket.
  - Certification: TÜV/GS, E-approved (95/54/EC EMC vehicle guidelines).

PN 500025740

## WAECO COOLFREEZE CDF-35 PORTABLE COMPRESSOR REFRIGERATOR

- Internal volume: approx. 31 litres.
- Input voltage: 12/24 Volts DC.
- Average input: 45 Watts.
- Percentage operating time: 20% at 20 °C room temperature, 30% at 32 °C room temperature, with unit internal temperature at +5 °C.
- Hourly input: average input x percentage operating time.
- From approx. +10 °C to -15 °C, with electronic thermostat.
- Hermetic Danfoss BD35F compressor with integrated control electronics, low-voltage protection with 2-position slide switch for either power supply battery or starter battery, electronic fuse/automatic reverse pole protection, dynamically ventilated wire condenser, aluminium rollbond evaporator, heat dissipation to the outside by brushless, wear-free fan.
- Material: body: PP; lid: PE.
- Colour: light grey/dark grey body, dark grey lid.
- Weight: 17.0 kg.
- 12/24 Volt DC connection cable.
- Certification: TÜV/GS, E-approved (95/54/EC EMC vehicle guidelines).

PN 2994506

## WAECO MY FRIDGE MF-IF BOTTLE COOLER

- The small size of this refrigerator makes it ideal for frequent journeys: designed for 1.5-litre bottles The aluminium interior ensures fast and effective bottle cooling/heating.
- Input voltage: 12/24 Volts DC.
  - Average input: 12 Volts: 30 Watts, 24 Volts: 44 Watts.
  - Thermal factor: cold: down to 22 °C below room temperature; warm: up to +60 °C.
  - System: wear-resistant thermoelectric module with external fan.
  - Material: plastic outside, aluminium inside.
  - Colour: grey/silver.
  - Dimensions (LxHxD): 150 x 215 x 190 mm.
  - Weight: 1.2 kg.
  - Quality characteristics: suitable for 1 to 1.5-litre bottles, smart design, cooling and heating function, wear resistant, aluminium interior for fast cooling/heating, easy screw-mount installation.
  - Certification: TÜV/GS, E-approved (95/54/EC EMC vehicle guidelines).

PN 2994954

## COMFORT MISCELLANEOUS

A series of accessories specially designed to make life on board relaxing and comfortable. **Let yourself be tempted by the wide range of solutions offered by Iveco Shop.**

### MAGIC COMFORT MH60B ELECTRIC BLANKET

A really good night's sleep in the cab!  
The MagicComfort MH60B electric blanket makes your sleeping compartment as cosy as your bedroom at home. Specially designed night gear for truck cabs: 24 Volt power supply, delicate fabric, sturdy power cable, etc. Make the best of your night... even when it's freezing cold outside!

Details:

- Voltage: 24 Volts.
- Capacity: High: 60 watts; Middle: 30 watts; Low: 15 Watts.
- Dimensions (LxW): 1740 mm x 540 mm.
- E-approved to 95/54/EC standard.

PN 2994501

### CUSHION WITH LOGO

Soft polyester filling and black microfibre cover with Stralis logo printed in grey. Machine washable at 30°.

PN 500025833

### TRAVEL SET

NEW

Complete travel set with 100x140 cm blanket, ear plugs, pillow and eye shade. Grey custom bag with "Irisbus Iveco" logo.

PN 500036382

## IVECO SHOP, FOR YOU AND YOUR TRUCK

**A range of products specially selected to meet every single need of both driver and vehicle.**

All the products are made with high-quality materials to ensure excellent performance in any situation. Furthermore, as with all Iveco accessories, each item undergoes numerous quality checks to guarantee reliability.

### DRIVER COMFORT

Improving the quality of life in the truck and minimising the discomfort of being away from home.

Clamshell bag with zip, upper part in 100% polyester; retro-reflective inserts, velcro handle grip with inserts.

- Material: upper parts, sides and mesh in polyester.

Retro-reflective "Iveco Shop" logo on the sides

**PN 500036027**

Extremely spacious trolley bag, takes up very little space when folded. Made of soft material, with rollerblade wheels and a number of different side pockets, including a removable sponge bag for short journeys. Large central pocket on the front and smaller pocket with multiple detachable compartments, which converts into a shoulder bag with two internal compartments and document holder. Rucksack straps on back with foldaway side fasteners. Name card slot hidden under handle.

- 100% polyester in two colours.

Embroidered "Iveco Shop" logo on front.

**PN 500036029**

Set consists of:

- black bag in 600D polyester (40x20x26 cm).
- beach towel in 100% cotton, 300 g/m2 (74x147 cm).
- hand towel in 100% cotton, 450 g/m2 (30x30 cm).
- guest towel in 100% cotton, 450 g/m2 (72x140 cm).
- bathrobe (size XXL) in 100% cotton, 450 g/m2.
- slippers (size 42-44).

Embroidered "Iveco Shop" logo (cotton products) and pad-printed logo (slippers and bag).

**PN 500036030**

Set consisting of black 200 ml tub of cream soap and black 200 ml tub of VITAL shower gel with aloe vera.

Customised with "Iveco Shop" logo on front label.

**PN 500036031**

## DRIVER TIME

Ideas for making breaks as pleasant as possible.

Stainless steel pocket knife with wooden grip, 7 implements, 10 functions, laminated handle with wood inserts.

Customised with "Iveco Shop" logo.  
PN 500044067

Corkscrew with wooden handle, complete with metal case.

Laser-engraved "Iveco Shop" logo (corkscrew) and pad-printed logo (case).  
PN 500036038

Collapsible table and 2-seat set with carry bag, 600D polyester seats and steel legs. Red with white lettering and black trim.

Pad-printed "Iveco Shop" logo on all products.  
PN 500036034

Collapsible seat with carry bag, 600D polyester seat and steel legs, red with black trim.

Pad-printed "Iveco Shop" logo on product and bag.  
PN 500036035

Red polyester hammock with silver steel tubing, removable cushion and carry bag. White lettering. Capacity 136 kg. Dimensions 175x73 cm.

Pad-printed "Iveco Shop" logo on product and bag.  
PN 500036036

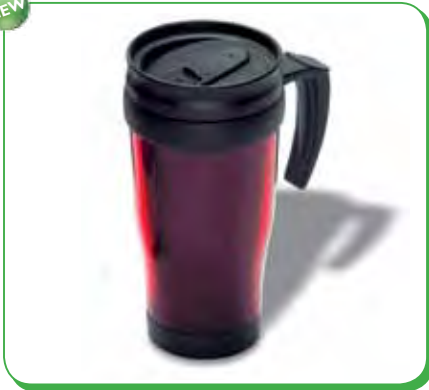

NEW

1000 ml stainless steel vacuum flask. Customised with "Iveco Shop" logo. PN 500044065

NEW

Thermal mug with "Iveco Shop" logo. PN 500044066

Stainless steel jug with plastic trim. "Iveco Shop" customisation with resin-coated adhesive label on side opposite handle. PN 500036041

Poker set in metal case containing: 200 chips (weight 11.5 g) in 6 colours, 5 dice, 2 decks of playing cards customised with Iveco Shop logo.

"Iveco Shop" logo on outside of case (resin-coated label). PN 500036043

Set consisting of 2 decks of Modiano poker cards, 55 cards per deck, 360 g/m2 triplex paper, wrapped in cellophane and packed in single box.

PN 500043644

## CAB INTERIOR COMFORT ACCESSORIES

### MOBILE PHONE CRADLE

NEW

#### CAR DOCK PER iPhone 4S/4, 3GS and 3G

This car dock is designed to hold the very latest iPhone 4S, 4, 3GS or 3G.

When used with the dedicated application, downloadable free of charge from App Store, this cradle transforms into a vehicle multimedia centre. It connects to the radio via the 3.5mm jack plug or the built-in FM transmitter.

THE integrated microphone can be used for voice or VoiP calls. The cradle can be rotated horizontally or vertically to the best viewing position.

PN 500036386

NEW

#### MOBILE PHONE HOLDER

PN 500044079

### MESH POCKETS

#### STRALIS, EUROCARGO, TRAKKER

Set of 2 mesh magazine holders, 8x5 in ABS and PC mesh, black. EU 95/28 type approval. Adaptable flexible material.

Comes with 10 Parker screws for easy fitting.

PN 500025717

#### STRALIS AS high roof

Mesh netting designed to stop objects falling out of the central compartment of your Stralis.

PN 500025757

### TORCH HOLDER

#### STRALIS, EUROCARGO, TRAKKER

Universal torch holder made of laser-cut aluminium with adjustable velcro straps. Fitted with 2 screws adjacent to slots. Customised with IVECO logo engraved in one corner.

PN 500025731

### PERFECTPOWER INVERTER

Safe, compact, convenient: PerfectPower. Thanks to their proven reliability, PerfectPower inverters have become an integral part of many onboard systems. The range includes 2 versions with different capacity ratings: 200 and 300 Watts. All versions have a special feature in common, an integrated priority circuit for 230V.

Model 830-024PP/S - Inverter 24/300V, 300 W.

PN 500025739

MSI-100-12 - Modified sine wave inverter 12V, 200W, 210 - 230 W out.

PN 500025837

### CAB INTERIOR MISCELLANEOUS

#### STRALIS, NEW DAILY

Particulate filters are made with multilayer filter media. This kind of system absorbs practically 100% of particles such as pollen, dirt, dust and soot and gives extremely efficient protection against breathable fine and ultra-fine particles. Combination filters provide double protection, thereby minimising health risks and considerably improving the comfort of the driver.

Pollen filter for Stralis • PN 2994583

Pollen filter for Daily • PN 2994584

#### STRALIS, EUROCARGO, TRAKKER AND TRUCK COMPETITORS

Innovatively designed air blower kit with ergonomic handgrip capable of reaching all areas of the vehicle.

Comes with spiral hose, quick-fit connector and universal connector.

PN 2994583

## BLUETOOTH

**To avoid dangerous distractions while driving.** Hands-free kit for wireless connections, suitable for mobile phones with Bluetooth. Features an innovative noise and echo suppression system for outstanding reception. Available in three versions: with display, built into rear view mirror and Plug & Play.

### PARROT CK 3000 EVOLUTION BLUETOOTH KIT

Thanks to the voice recognition, you can say a name and the CK3000 EVOLUTION automatically dials the number. And you keep safe by keeping your hands on the wheel. Turn the intuitive browser button and the kit will dictate the menu functions, allowing you to check and manage your voice mail, browse your phonebook, record voice commands, select a language, etc.

- Keypad Dimensions: 50 x 26 x 19 mm.
- Bluebox: 135 x 30 x 58 mm.
- Kit contents: 1 electronic control unit, 1 external microphone, 1 power supply cable, 1 mute cable with standard ISO connector; 1 keypad, fitting accessories, user guide.

PN 500025709

### PARROT CK 3100 LCD BLUETOOTH KIT

The LCD screen displays the standard information shown on your mobile phone: incoming calls, recent calls, missed calls, voice mail, phonebook, etc. The unidirectional microphone allows voice recognition dialling of up to 150 names, with background noise and ambient echo reduction. The browser button allows users to scroll through menus and control the volume.

- LCD screen dimensions: 50 x 15 x 43 mm.
- Bluebox: 135 x 30 x 58 mm.
- Kit contents: 1 electronic control unit, 1 external microphone, 1 power supply cable, 1 mute cable with standard ISO connector; 1 keypad with LCD screen, fitting accessories, user guide.

PN 2994815

## TOUCH & TALK MIRROR

### TOUCH & TALK MIRROR

The Touch & Talk rearview mirror is a new wireless device designed to reduce distraction factors caused by the use of mobile phones while driving. Simply press the button on the right of the mirror and start talking, keeping your hands free and without taking your eyes off the road. The audio is routed directly to the vehicle's speakers, muting the radio volume. The noise and echo suppression functions guarantee maximum quality. All the ergonomic features have been developed in conjunction with the University of Padua. Voice recognition of up to 200 names.

- Dimensions: 245 x 75 x 32 mm.
- Pairing: up to 3 different devices.
- Microphone: integrated.
- Compatible with all Bluetooth mobile phones.

PN 2994767

### TOUCH & TALK MIRROR

The perfect Bluetooth solution, quick and easy to install by attaching to the existing rear view mirror in just a few seconds.

The display, microphone, speaker and controls are completely integrated and perfectly positioned at face level in the line of vision.

When your mobile phonebook is recorded in the Vossor Business, you will see the name of the contact on the display, and, thanks to the TTS technology, a voice will say the name of the person calling. You can thus make and receive calls from the mirror, without having to touch the phone.

- Integrated speakers, battery and microphone.
- Autonomy: 25 hours conversation 500 hours in standby.
- Backlit LCD display.
- DSP technology.
- TTS (Text-to-Speech) and ASR.
- Integrated phonebook with space for up to 2000 numbers.
- Multipoint: simultaneous use of two phones.

PN 500036384

## BLUETOOTH HANDS-FREE KIT

To use this kind of device, simply connect the kit to the cigarette lighter socket and start the engine. The kits are ready for instant use with no need to recharge. Bluetooth technology enables mobile phones to be connected directly to the kits, for making and receiving unlimited calls. Compatible with all Bluetooth mobile phones.

NEW

### BLUETOOTH HEADSET

- Maximum audio fidelity with DSP technology and double.
- Weight: 10.8 g.
- Conversation autonomy: up to 4.5 h.
- Connector: Usb Micro.
- Standard Bluetooth v 2.1 EDR.
- Clip, neck cord, holder, USB cable, extra earphones and battery charger with local adapters supplied.
- Updateable firmware.

PN 500036385

NEW

### BT DRIVE FREE III BLAUPUNKT

Portable Bluetooth hands-free system on sun visor.

Main features:

- Integrated microphone and speaker.
- DSP noise cancellation.
- Reception up to 10 m.
- Multifunction control for: accepting or refusing a call; muting; redialling last number; transferring or terminating a call.
- Speaker volume adjustment.
- Li-polymer rechargeable battery.
- Autonomy: 10 hours conversation 400 hours stand by.

Included in pack: sun visor clip; car-connectible phone battery charger; USB cable for recharging.

PN 2994692

### PARROT EASY DRIVE

- Kit contents: speaker + keypad.
- Pairing: up to 45 different devices.
- Voice recognition up to 150 names.

PN 2994821

### TECNOBLOCK BTP05

- Built-in speaker.
- Operates on 12V or 24V.
- Supplied with extra microphone.

PN 2994692

## HANDS-FREE KIT

Fitting point for DABENDORF AUDIO 2000 hands-free phone kit, to be used in combination with the CCM 14003. Echo reduction and interference suppression. Intelligent charging and automatic radio mute functions. External aerial input.

## DIGITAL TERRESTRIAL SET-TOP BOX

Developed specifically for vehicle applications, receives digital terrestrial signals in any conditions. Compact and easy to install. Just like being at home.

### QTM 100

The QTM 100, developed by Quantum, is the only digital terrestrial TV mobile set-top box approved for Pay-TV. The QTM 100 has been specially designed for use in moving vehicles: its special construction means that it resists vibration and can withstand high temperatures and extreme working conditions making it ideal for use on any type of vehicle. The decoder can also be connected to a standard 220V power adapter and used at home.

With its versatile connection options - three video outputs, two audio outputs (one stereo) and two independent audio/video stereo inputs - the QTM 100 becomes a genuine multimedia centre; all settings can be selected directly from the remote control. Digital Terrestrial Television is the standard of the future in the major European countries: Digital terrestrial television also has numerous

advantages for the user, compared to conventional TV: digital quality audio and video, interactive MHP applications, a vast selection of free-to-air channels, the main terrestrial channels and pay-per-view channels showing football, films, concerts. Quantum has developed aerials specifically for the QTM100 for receiving digital terrestrial TV on the move. Quantum aerials are easy to fit, extremely stylish and designed to limit signal dispersion. Each QTM100 requires two aerials. Kit includes: decoder, 12V power supply cable, RCA cable, 2 aerials and 220V adapter.

PN 2994960

## NAVIGATION SYSTEMS

**Always reach your destination** with the Iveco Shop range of satellite navigation systems to guide you along on any road.

### TOM-TOM GO1000 KIT

Technical characteristics:

- Monitor: LCD 4,3" (11 cm), widescreen (16:9), WVGA (480 x 272 pixel, 64.000 colors).
- GPS receiver: GPS high-sensitivity chipset.
- Memory: 4 GB flash memory.
- Weight: 220 g.

Both versions with specific software version:

- Iveco specific Splash Screen activates.
- Specific Iveco Daily icon.
- Specific Iveco points of interest.

Kits include:

- Tom-Tom GO1000 navigation system.
- Cradle.
- Suction pad holder with vehicle power supply cable.

PN 500043898 "LIVE" KIT

#### NAVIGON 40 PREMIUM

- 4.3" touchscreen display.
- Lane assistant function.
- Integrated TMC antenna.
- Text-to-Speech.
- Speed trap data.
- Reality View pro.
- Voice command function.
- Clever Parking, MyRoutes.
- Speed assistant.
- 2D and 3D views.
- Pedestrian navigation.
- Maps of 43 European countries.

PN 500043999

#### NAVIGON 70 PREMIUM

- 5.0" touchscreen monitor, 16:9 format.
- ST-AGPS.
- Microsoft Windows CE operating system.
- 4GB flash memory/128 MB RAM.
- STMicroelectronics Cartesio STA 2064 processor.
- 1400 mAh lithium battery.
- Weight 184 g.
- Dimensions 137,4 mm x 83 mm x 15,3 mm.

PN 500043889

#### MIO MOOV SPIRIT FLAT-FULL EUROPE

- 4.7" LCD screen.
- Ultra thin lightweight design.
- Innovative Spirit software with slide touch.
- 3D view of exits and interchanges.
- Lane assistant function.
- MioMore Desktop 2 local search.
- Explore function.
- Economic route intelligent calculation function.
- Navpix navigation-by-picture.
- Preinstalled speed trap data.
- Text to Speech (TTS) function.
- High speed GPS fix with SIRFIInstantFixII.
- Preloaded data with speed limits.
- Capture function.
- Pre-installed TMC traffic module.
- Up-to-date maps of West Europe (44 nations).

PN 500043905

#### PIONEER AVIC-F930BT

The AVIC-F920BT is an integrated audio/video and navigation system. 4 GB flash memory. Points of Interest can be added and audio and video files can be played from MicroSD card or USB devices. The AVIC-F920BT reads most files and disks, including CD, DVD and DivX.

The Bluetooth Parrot wireless telephone technology ensures easy handling of incoming calls. Main strong points:

- Complete navigation and entertainment system with Europe map and traffic info.
- 6.1" WVGA screen with touch panel and revolutionary AV 3D interface
- High quality audio components.

PN 500044018

#### BECKER INDIANAPOLIS PRO

The Becker Indianapolis Pro features outstanding navigation and innovative technology. With Bluetooth® wireless technology, the unit becomes a hands-free phone system. Other important functions include: iPod compatibility, CD-MP3-WMA player and 2-RDS tuner.

PN 2994986

### NAVIGATION SYSTEMS WITH DIGITAL TERRESTRIAL TV

For the first time, GPS and digital terrestrial TV technology have combined to create a really revolutionary product: a mobile multimedia centre, the ideal companion for travel holidays and leisure time.

#### MIO MOOV V735 EUROPA WITH TV DVB-T

The V735 TV has an exceptional 7" maxi screen, indispensable on longer journeys for both navigation and digital TV entertainment.

Moov Spirit V735 TV, with integrated DVB-T tuner gives access to hundreds of digital TV channels and radio stations. Also, the 2GB of built-in memory can be expanded via the MicroSD slot, making it possible to watch your favourite films, (MPEG4/DivX), play thousands of MP3 files and view hundreds of digital photos. The TV function is very easy to use and intuitive: the integrated program guide tells you what's on

all channels up to 7 days in advance; the simple touch-screen menu and remote control allow you to select your favourite programs in just a few seconds.

Main features:

- 7" maxi touch- screen LCD.
- TV DVB-T tuner.
- Innovative Spirit software with slide touch.
- Ultra thin lightweight design.
- TruMap maps, for viewing only the information necessary.
- 3D view of exits and interchanges and lane Assistant function.
- MioMore Desktop 2 local search.
- Explore function.
- Preloaded Wcities travel guide.
- FM Transmitter.
- Economic route intelligent calculation function.
- Video (Mpeg4/DivX) and MP3 player.
- Preinstalled speed trap data (trial version free for 1 year).
- Text to Speech (TTS) function.
- High speed GPS fix with SIRFIInstantFixII.
- Preloaded data with speed limits - Capture function.
- Pre-installed TMC traffic module - Navpix navigation-by-picture.
- West Europe maps.

PN 500043907

NEW

## MINI COYOTE PLUS

Coyote is the first system that is able to report on the presence of fixed and mobile speed traps, traffic light cameras and tutor speed monitoring systems in real time

### COYOTE FOR SAFETY

Coyote is an important safety accessory for both motorists and pedestrians.

**Speed limits** Coyote knows the exact speed limit on the road you're travelling on.

**Schools.** Coyote recognises zones where there are schools and takes you to a completely safe speed.

**Speed traps.** Coyote emits audible and visible warnings if you go over the speed limit and tells you to slow down.

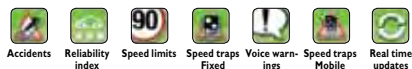

**Accidents.** Coyote warns you if an accident has occurred and advises you to slow down and switch on your hazard lights.

**Wrong side of the road.** Coyote understands if the user has joined the motorway on the wrong side of the road and emits a signal immediately.

Countries where active:  
France, Belgium, Holland, Italy, Spain and UK.  
PN 500036387

TRAVEL SAFELY  
TRAVEL COYOTE

**100% LEGAL**

### TECHNICAL CHARACTERISTICS:

- Visual alarm on OLED colour monitor, and 3 coloured LEDs.
- Voice and sound alarm.
- Constant speed limit signalling.
- Traffic and road conditions information.
- GPRS/GSM communication.
- 50-channel u-blox GPS. A-GPS technology (high sensitivity and rapid GPS signal acquisition).
- Satellite acquisition time 3-50 seconds.
- Average battery autonomy: 4-5 hours.
- Rechargeable via 5V USB or 12V cigarette lighter socket in vehicle (included in pack).
- Consumption: 450 mA max when running, 300 mA max when charging.
- Dimensions: 8 cm; 5 cm; d. 2.5 cm.
- Weight: 103 g.
- Colour: black.

The digital tachograph accessories range comprises: rolls of paper for digital tachograph data printouts and data storage/management systems: Downloadkey and TIS-Compact PLUS.

Original Iveco paper rolls are designed to guarantee maximum print quality at all times, in compliance with EU digital tachograph regulations.

- Printout paper approved in all EU states.
- Iveco Shop brand and packaging.
- Length 8 metres.
- Packed in foil for protection against light and humidity.
- Usable even after long storage periods in the vehicle.
- Printouts legible for over 3 years.

PN 2997252

### DOWNLOADKEY II

The SIEMENS VDO DOWNLOADKEY II is the ideal transport medium for downloading and saving data to a PC. Fields of application:

- Downloading driver card data via the front interface on digital tachographs.
- Data transfer and archiving.

Characteristics:

- Universal for all EU countries.
- Compatible with all digital tachographs and computers with USB port.
- Features integrated configuration software.
- Transfer s data quickly to PC via USB 2.0 interface.
- Suitable for both 12V and 24V systems.
- Interactive display.
- Can also be used as a conventional USB memory stick (256 MB).
- No separate power supply required.

PN 2994743

### TIS-COMPACT PLUS

TIS-Compact Plus is the new accessory for simplified digital tachograph data management. IT consists of an intelligent download key and built-in software for displaying and managing data. Ideal for helping small fleets to comply with all legal requirements. Data can be downloaded quickly and reliably from all digital tachographs and stored on a PC or laptop.

TIS-Compact Plus introduces the following new features, compared to previous versions:

- Daily report on driver activities (availability, driving, working and resting times).
- Printout of download data.
- Reminder on downloaded files and upcoming downloads.
- Data export data to other PC applications (Excel, Access) for improved fleet management.
- Speed graph for the last 24 hours of driving time.
- Signature checking on downloaded files.
