

IVECO showcases new IVECO X-WAY and ready-built Daily Driveaway scheme at TipEx 2021

IVECO joins TipEx on its return, displaying light and heavy solutions to the specialist, aggregates, bulk & tipper haulage industry from Daily to the new IVECO X-WAY.

Basildon, September 29th, 2021

IVECO will be trucking up to the Harrogate International Convention Centre in Yorkshire for TipEx, which returns after a year's hiatus from September 30th to October 2nd.

On the stand this year, IVECO will be showcasing its latest heavy-duty vehicles, such as the recently launched IVECO X-WAY in tipper chassis and tipper-grab form. Also on display at the lighter end, will be a 3.5t Daily Driveaway Arboriculture Tipper.

The new IVECO X-WAY marks the perfect crossing between the on-road comfort, connectivity and driveability of the new IVECO S-WAY and the strength and toughness required for those tasks that see last mile delivery points away from the beaten track.

The first, an AD360X42Z/P OFF, features a Boweld Mightylite HD Grabmaster tipper-grab body with Edbro UB16 tipping gear and Palfinger Epsilon Classic crane on a 5020mm wheelbase 8x4 chassis with rear air suspension. Finished in X-WAY's hero metallic orange paintwork, the 32-tonner features the 420hp/2,000Nm HI-SCR Cursor 11 diesel engine with the proven and well-received 12-speed automated HI-TRONIX gearbox with Rocking Mode. Both front axles are rated at 8-tonnes with the dual-drive rear bogie rated at 21-tonnes.

The 2.3m wide low-roof AD (day) Cab has been equipped with full LED lighting (front/rear/roof beacons) with cornering lights and protection bars, Tyre Pressure Monitoring System, servo-assisted cab tilting, door roller blinds, DSE + DAS (Driving Style Evaluation & Driver Attention Support), ESP, automatic climate control, electrically adjustable & heated door mirrors, air horns, full-Air cab seating with red safety belts, radiator guards, Alcoa Diamant alloy wheels, external sun visor, idle cut-off, leather steering wheel and a swivelling 7" touch-screen infotainment system with smartphone mirroring, Bluetooth, USB, DAB, TomTom LIVE truck navigation and Over-the-Air software update capabilities.

'OFF' (N3G) homologation is perfect for predominantly off-road applications with legendary robustness, a shallower TCO-enhancing 3-piece steel front bumper and a >25° approach angle.

Additionally, IVECO will be displaying a second new X-WAY, dealer Guest Truck & Van customer, Jab Haulage's AS360X51Z ON+. In white, the truck showcases the standard-fit 3-piece Hybrid front bumper with its extra-durable lower sections constructed from high-strength steel with optional colour-coding above. The ON+ set-up offers a minimal 72mm axle drop for additional ground clearance, ideal with the vehicle entering service on a Tarmac franchise. The max-width AS low-roof sleeper cab features a high-level of equipment with a wide T-shaped single bunk, wrap-around dashboard, and a minimal 95mm high transmission tunnel, helpfully containing any debris to the individual footwells. The vehicle will be fitted with a Swadlincote Aluminium & Welding high-sided 'v-runner' insulated tarmac tipper body.

PRESS RELEASE

Creating immediate solutions to businesses operating at the lower end of the weight scale (3.5-7.2t), IVECO presents a 3.5t Arboriculture Tipper from its ready-to-roll DRIVEAWAY programme. In-stock, all Driveaway vehicles are built to Daily Business specification, comprising air conditioning, cruise control with speed limiter, electrically adjustable & heated door mirrors, and front fog lights, offering comfort and adaptability with dedicated model-line badging helping to boost resale values by up to £1,000 at 12-months old.

The ARB Tipper variant is built on the 35C16H, with twin rear-wheels, 3750mm wheelbase, heavy-duty homologated 160hp 3.0 F1C diesel engine and 6-speed manual gearbox. As standard, it also includes the new Construction Pack (Tyre Pressure Monitoring System, sump guard, cross-axle locking differential, elliptical rear springs and towing electrics) plus Hill Descent Control & Traction+ for those more challenging locations. The business-end features remote-controlled 3-stage electronic under-floor tipping gear with a tough high-sided aluminium Brit-Tipp tipping body with aluminium tool lockers mounted behind the cab barn doors, adjustable chip-hood and ladder rack on a galvanised steel chassis. A pull-out rear step, LED safety beacons and towbar complete the generous and highly functional specification.

TipEx '21 opens at 10:00 on Thursday September 30th, closing at 16:00 on Saturday October 2nd at Harrogate Convention Centre in Harrogate, Yorkshire. IVECO will be occupying stand OS22 outside the main entrance to the Royal Hall off Ripon Road.

IVECO

IVECO is a brand of CNH Industrial N.V., a world leader in capital goods listed on the New York Stock Exchange (NYSE: CNHI) and on the Mercato Telematico Azionario of the Borsa Italiana (MI: CNHI). IVECO designs, manufactures and markets a wide range of light, medium and heavy commercial vehicles, off-road trucks, and vehicles for applications such as off-road missions.

The brand's wide range of products include the Daily, a vehicle that covers the 3.3 – 7.2 ton vehicle weight segment, the Eurocargo from 6 – 19 tons and, in the heavy segment above 16 tons, the IVECO WAY range with the on-road IVECO S-WAY, the off-road IVECO T-WAY and the IVECO X-WAY for light off-road missions. In addition, the IVECO Astra brand builds off-road trucks, rigid and articulated dumpers as well as special vehicles.

IVECO employs close to 21,000 individuals globally. It manages production sites in 7 countries throughout Europe, Asia, Africa, Oceania and Latin America where it produces vehicles featuring the latest advanced technologies. 4,200 sales and service outlets in over 160 countries guarantee technical support wherever an IVECO vehicle is at work.
